EDITOR'S NOTE :

I being a serious student of astrology since more that four decades, was not satisfied with the general theoretical books on Astrology flooded in the market. Though I have great esteem for all classical works, which I methodically assimilated with the help of great scholars with whom I was associated for several years, still my mind was always in search of more secrets & the missing links of this great science. Fortunately, I had the blessings of God almighty to have many secrets from great pandits of this country whose names I always think and remember in my morning prayers. Of these great pandits, Mr H.R. Seshadri Iyer, the author of "NEW TECHNIQUES OF PREDICTION" (Parts i, ii, iii) has highly influenced my mind in understanding this age-old science with many missing links, with proper perspective. After going through this system & techniques which I applied for more than two decades, I can confidently say that no student of astrology should miss his works & study them carefully to understand his techniques which will be very useful in our day today astrological analysis. I have taught these techniques to all my students in India and abroad & all my students are very happy as they found it very useful.

I was over-joyed when I heard that Mr B.K. Mahipal of Janapriya Prakashana, Bangalore undertook the task of publishing these books which are out of print today. I was also pleased to make here & there some notes to make the students understand properly ; my intention was not to change anything in the books the author has written. I hope that the student community and the general public who are interested in astrology will make use of these books which are very useful not only for beginners, but also for students who wish to make higher studies in astrology.
