ॐ New Techniques of Prediction Part III ॐ

This science of Race astrology is based on 3 factors – (1) elementary principles of astrology, (2) alphabetology (Akshara Shastra), and lastly (3) numerology (Sankhya Shastra). There are authors who have dealt with them separately but we have adopted a different method in which we have clubbed all 3 branches for arriving at the judgment. So we are going to describe what are all the fundamentals that one should know under each head.

ॐ_Astrological_aspect_ॐ

Under this head we are not going to deal with more than what is essential to follow this method. So one should not be afraid that because this is based on astrology it would be beyond the hold of a layman. What is needed in this connection is to erect the chart for the day of event and note Lagnas running during the race times. In the following lessons we teach even a layman to be able to follow us. Please read with care.

What is really needed is the positions of planets in Rasi chart and the stars in which they are posited and Lagnas running at each race. For our purposes it is not even necessary to find their exact positions. Those that are able to work out these with the aid of a standard Panchanga may do so. Others will do good to do this with the aid of Lahiri Ephemeris for the year concerned which will be explained in detail hereunder. Those that work with the aid of Raphael's Ephemeris may also do so but convert the positions into Nirayana by subtracting the correct Ayanamsa of the year as followed by Lahiri. We take up one by one in detail and show the way out.

ॐ Calculation of Lagna ॐ

To do this the factors needed are the latitude and longitude of the place of race. Planetary positions are to be calculated for IST while Lagna on LMT of the place. What they are will be explained later. IST is Indian Standard Time which is 5 1/2 hours in advance of Greenwhich Mean Time (GMT) followed all over India.

For the benefit of those who cannot follow the astrological vocabulary we have used in this text we furnish the translations in English.

Grahas (planets)	
Sanskrit	Western
Surya [Ravi]	Sun
Chandr	Moon
Mangal [Kuja]	Mars
Budh	Mercury
Guru	Jupiter
Sukr	Venus
Sani	Saturn
Rahu	Dragon's head
Ketu	Dragon's tail
Lagna	Ascendant
Rasi	Sign

Rasis (signs)	
Sanskrit	Western
Mesha	Aries
Vrisabha	Taurus
Mithuna	Gemini
Karkataka	Cancer
Simha	Leo
Kanya	Virgo
Thula	Libra
Vrischika	Scorpio
Dhanur	Sagittarius
Makara	Capricorn
Kumbha	Aquarius

ॐ To find LMT from IST ॐ

At the rate of 4' for every degree of longitude work out the time of the place. This is the time difference for that place reckoned from Greenwich Mean Time. If this be more than 5 1/2 hours add the difference to the IST to get the LMT of the place, but if this is less than 5 1/2 hours subtract this difference from IST to get the equivalent LMT of the place.

Now refer to the Annual Ephemeris of Lahiri. Note the Siderial Time at Noon LMT on that day as given under Col. 2 under Sid. Time. To this add the LMT got as before for the required race time, This becomes the Sidereal Time in hours and minutes for the race time. Now turn to the Table of Ascendants (Abridged) on page 74 - 75 of Lahiri Annual Ephemeris. Under the Col. nearby the latitude of the place of race look for this Sid. Time and across that Row under Col. I see how many degrees of Lagna and under what Rasi. That becomes Lagna. For our purposes it is enough if you merely note what Lagna is. When it falls at margin then you have to calculate

strictly by proportional methods as will be described later. If you have Lahiri's detailed Table of Ascendants then this becomes easy.

Let us work out a practical case on 04.10.1970 at 02:30 pm IST at Hyderabad whose latitude is 17 N 26 and longitude 78 E 27.

First we have to convert 02:30 pm IST into LMT. Multiplying the longitude of the place 70° 27' by 4' we get 314' as the LMT of Hyderabad in advance of GMT. As IST is 5 1/2 hours in advance of GMT the LMT of Hyderabad is 16 minutes less than IST (330 - 314). So the LMT of Hyderabad is got by subtracting 16 minutes from IST and so LMT of 02:30 pm IST becomes 02:14 pm LMT.

In Col. 2 of Lahiri Ephemeris for 04.10.1970 Sidereal time at noon is given as 12 h 50 m correcting to minutes (omitting the seconds). To this add time elapsed from noon, i.e. 02 h 14 m. We get 15 h 04 m as the Sid. time at race time of 02:30 pm IST.

Now turn to Table of Ascendants on page 74 - 75 of Lahiri Annual Ephemeris. This being an abridged table you have to work out by proportions both for latitude and Sidereal Time. If you possess detailed table you may straightaway look under the said latitude for the required Sid. Time and strike Lagna in a minute. If this abridged table is used work as follows:

As the latitude of Hyderabad falls between 16 N 47 and 18 N 58 for which the details are given here you have to work by proportions Lagnas correspondings to the given Sid. Time and then work out by proportions.

Let us first take up lat. 16 N 47

For Sid. Time of 14 h 47 m

Lagna is 10° Makara

For Sid. Time of 15 h 24 m

Lagna is 20° Makara

So for 37 m Lagna moves by 10°

So for 17 m Lagna moves by 10 × 17 ÷ 37°

(15-4 – 14-47) = 04° 34' (roughly).

Adding this to the position for Sid. Time of 14-47 we get 14° 34' of Makara.

Similarly work out for lat. 18 N 58 when we get 14° Makara as Lagna.

For 16 N 47 Lagna is 14° 34' of Makara

For 18 N 58 Lagna is 14° 00' of Makara

We require for 17° 26'. Working as usual by proportions we get Lagna at 02:30 pm IST at Hyderabad on that day as 14° 17' of Makara. As stated before worked with detailed table it becomes easy.

ॐ Working of Graha's positions ॐ

After finding out Lagna for each race we have to work out the planetary positions as at race times. Except Chandr all Grahas remain in the same Rasi during the course of race time ranging usually between 10 am and 06 pm. It is enough if we work out the positions for some day time say 01:30 pm on the race day or for the time of first race noting of course any changes of any particular Graha during the said hours in its Nakshatra and Rasi positions. In the case of Chandr if there be change the same may be worked out.

ॐ How to work out Graha's positions on 04.10.1970 at 02:30 pm IST ॐ

In this connection we wish to point out that except the position of Lagna the positions of Grahas remain the same at the moment of 02:30 pm IST all over world. So for calculation of Graha's positions we need not bother about the place of race. If you choose to work out their positions from a standard Panchanga of Driganitha you may do so noting Nakshatra Padas of each Graha as that is of importance to us.

If you wish to work out from Lahiri Ephemeris proceed as follows. Lahiri has given the positions of Grahas (longitudes in Rasi-degree-minute) for 05:30 am IST. Starting with this, work out for the required time of race noting the movement of that Graha for the difference of time thus evolved. If the motion is direct add this difference and if retrograde (Vakri) subtract from the position at 05:30 am IST. Then you get the positions for the required time. The difference is got by working out by proportions noting the daily motion of that Graha which can be seen from the two successive days positions. Whether it is direct or retrograde motion may also be seen from them. Of late Lahiri has given True Rahu positions in his Ephemeris while in the previous years he was giving Mean Rahu positions. What we want is Mean Rahu position and this is given once in 10 days on page 30 of his annual Ephemeris. Taking the daily motion of Rahu as 3.18 minutes a day as his average motion work out from the position of the known date given to the day of race by proportional basis. In this way you will be able to cast the positions of all Grahas. As Ketu is situated at 180° apart from Rahu (once Rahu) is known Ketu is automatically known.

Let us now work out Graha's positions at 02:30 pm IST on 04.10.1970.

First of all note the difference of time from 05:30 am IST to 02:30 pm IST which is 9 hours.

Let us first take up the case of Surya. R-D-M

On 05.10.1970 at 05:30 am his position is 05-17-53

On 04.10.1970 05-16-54

The difference gives the daily motion of Surya as 59' a day of 24 hours. So his movement for 9 hours is 59 ÷ 24 × 9 minutes which is roughly 22 minutes. Adding this to the position of Surya at 05:30 am we get the position of Surya at 02:30 pm IST as 5 Rasis 17° and 16' (ignoring seconds). This position is at 17° 17' of Kanya and its Nakshatra is Hasta 3rd Pada whose Nakshatra Lord is Chandr. See later lessons for reading Nakshatra positions and Nakshatra Lords from degrees and minutes positions in Rasis.

In this way work out other Grahas noting of course their direct and retrograde motions. Worked this way the following will be the positions of Grahas.

Surya - 05-17-16; Chandr - 06-26-56; Mangal - 04-26-19; Budh - 05-01-01; Guru - 06-15-18; Sukr - 06-27-13; Sani - 00-28-24

and their Nakshatra Lords in order are:

Ch – Gu – Sk – Sy – Ra – Gu - Sy respectively from Surya on to Sani in order.

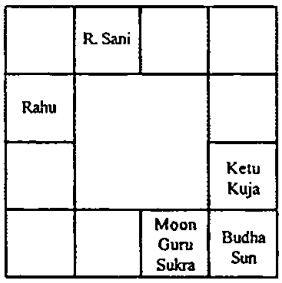

ॐ Working of Rahu and Ketu ॐ

Please refer to page 30 of Lahiri Ephemeris. On 28.09.1970 at 05:30 am his position is 10-07-32. On 04.10.1970 at 02:30 pm the difference is 6 days and 9 hours.

For 6 days at 03-18 a day it works to about 19'.

For another 9 hours it is 1 minute. Thus the motion for the said difference is 20'. As motion of Rahu is always retrograde substract 20' from the position on 28.09.1970 and thus we get Rahu posited at 10 Rasis 07° 12', i.e. at 07° 12' in Kumbha. As Ketu is at 180° from Rahu the position of Ketu is 07° 12' of Simha. Nakshatras of Rahu and Ketu are Shatabhisha 1st Pada and Magha 3rd Pada respectively and their Nakshatra Lords are Rahu and Ketu respectively.

Summing up, the chart as at 02:30 pm IST on 04.10.1970 stands as following:

From SJS 6:

Tabular form of Graha's positions

Graha	Rasi	° & '	Nak. Pada		Nak. Lord

For picking the winners we need the positions of Grahas in Rasis and Nakshatras and again we have to know what each quarter of a Nakshatra represents in terms of **alphabets** (**Nama Nakshatra**). As we are mainly concerned with Nakshatra positions of Grahas it is enough if they are worked out either with the aid of standard Drigganita Panchanga as "Kumbakonam Mutt Viswanatha Swrothy Panchangam" or Lahiri Ephemeris. Those who use Raphael or any other Sayana Ephemeris should get the positions converted to Nirayana using the correct Ayanamsa formulated by Government of India.

ॐ Chapter 2 ॐ

ॐ Nakshatra positions of Grahas ॐ

ॐ worked from Ephemeris ॐ

Nakshatra positions of Grahas are very important for us as the crux of picking up the winners depends mainly on Nakshatra Lords. How Nakshatras are distributed in the Zodiac and how to evaluate from the degree positions the concerned Nakshatras will be explained in these lessons.

ॐ_Distribution_of_Nakshatras_in_Rasis_ॐ

There are 27 Nakshatras running in a particular order from Aswini to Revati. All these 27 Nakshatras are distributed equally and in consecutive order in 12 Rasis of the Zodiac. Thus by 'Rule-of-Three' we get 2 1/2 Nakshatras located in each Rasi. For some convenience each Nakshatra is divided into 4 equal parts called Padas. Thus a Rasi contains 2 1/2 Nakshatras or 9 Padas. The entire Zodiac has **108 Padas** which number is given much importance in the chantings (Astotharam). Next the order:

Starting from 00° of Mesha with Aswini 1st Pada, we have in Mesha - Aswini 4 Padas, Bharani 4 Padas and Krittika 1 Pada, totalling 2 1/2 Nakshatras or 9 Padas. Next Vrishabha Rasi starts with Krittika 2nd, 3rd and 4th Pada, Rohini 4 Padas and Mrigashira 1st and 2nd Pada. Running further in the same order, lastly in Meena Rasi 4th Pada of Purvabhadra, all 4 Padas of Uttarabhadra and all 4 Padas of Revati are situated. Thus you have to note the distribution of Nakshatras. These are fixed Nakshatra positions.

ॐ_How_to_apportion_longitudinal_spans_to_these_Nakshatras?_ॐ

You must know that the longitudinal span of a Rasi is 30°. Distributing these 30° to 9 Padas of a Rasi, we get 03° 20' as the longitudinal span of a Nakshatra Pada. As such 4 Padas constituting a full Nakshatra occupy 13° 20' span in a Rasi. Above is stated the order of Nakshatras in Rasis. Accordingly allot their degree positions. For clearer understanding see the table below:

	Rasis	Nakshatras	Span in ° & '
1)	Mes	Aswini (F)	00-00 to 13-20
		Bharani (F)	13-20 to 26-40
		Kritika (1)	26-40 to 30-00
2)	Vrb	Krittika (2/3/4)	00-0 to 10-00
		Rohini (F)	10-00 to 23-20
		Mrigashira (1/2)	23-20 to 30-00
3)	Mit	Mrigashira (3/4)	00-00 to 06-40
		Ardra (F)	06-40 to 20-00
		Punarvasu (1/2/3)	20-00 to 30-00
4)	Kar	Punarvasu (4)	00-00 to 03-20
		Pushya (F)	03-20 to 16-40
		Aslesha (F)	16-40 to 30-00
5)	Sim	Magha (F)	00-00 to 13-20
		P. Phalguni (F)	13-20 to 26-40
		U. Phalguni (1)	26-40 to 30-00
6)	Kan	U. Phalguni (2/3/4)	00-00 to 10-00
		Hasta (F)	10-00 to 23-20
		Chitra (1/2)	23-20 to 30-00

	Rasis	Nakshatras	Span in ° & '
7)	Tul	Chitra (3/4)	00-00 to 06-40
		Swati (F)	06-40 to 20-00
		Vishaka (1/2/3)	20-00 to 30-00
8)	Vrk	Vishaka (4)	00-00 to 03-20
		Anuradha (F)	03-20 to 16-40
		Jyesta (F)	16-40 to 30-00
9)	Dha	Moola (F)	00-00 to 13-20
		P. Ashada (F)	13-20 to 26-40
		U. Ashada (1)	26-40 to 30-00
10)	Mak	U. Ashada (2/3/4)	00-00 to 10-00
		Sravana (F)	10-00 to 23-20
		Dhanista (1/2)	23-20 to 30-00
11)	Kum	Dhanista (3/4)	00-00 to 06-40
		Shatabisha (F)	06-40 to 20-00
		P. Bhadra (1/2/3)	20-00 to 30-00
12)	Min	P. Bhadra (4)	00-00 to 03-20
		U. Bhadra (F)	03-20 to 16-40
		Revati (F)	16-40 to 30-00

From the above table Nakshatra falling at a particular degree and minute may be worked out. Grahas posited at such places are said to be in that Nakshatra.

ॐ_Nakshatra_Lord_ॐ

Each Nakshatra is ruled by a Graha as per Udu Dasha as stated below. Thus the ruling Graha of a Nakshatra in which a Graha is posited becomes Nakshatra Lord of that Graha.

Nakshatra			Nakshatra Lord
Aswini	Magha	Moola	Ke
Bharani	Purvaphalguni	Purvashadha	Sk
Krittika	Uttaraphalguni	Uttarashadha	Sy
Rohini	Hasta	Sravana	Ch
Mrigashira	Chitra	Dhanista	Ma
Ardra	Swati	Satabisha	Ra
Punarvasu	Vishaka	Purvabhadra	Gu
Pushya	Anuradha	Uttarabhadra	Sa
Aslesha	Jyesta	Revati	Bu

ॐ_Aspects_ॐ

This is also of importance to us and so you should know the system of aspects. All Grahas aspect 7th Rasi from the one occupied by them. In addition, the following are the special aspects to be noted:

Mangal aspects	4 and 8
Guru aspects	5 and 9
Sani, Rahu & Ketu aspect	3 and 10.

ॐ_Rasi_Lords_ॐ

You should first of all know Lord of each Rasi and they are as follows:

Mesha & Vrischika	are ruled by	Mangal
Vrishabha & Tula		Sukr
Mithuna & Kanya		Budh
Dhanus & Meena		Guru
Makara & Kumbha		Sani
Karkataka		Chandr
Simha		Surya
Kumbha		Rahu [co-Lord]
Mesha		Ketu [co-Lord; more common info is Vrischika]

P.S.: Inspite of this easy coaching on the astrological side if anyone feels it difficult to erect the map he may get it done by a local astrologer, and then proceed further on our theory.

For the benefit of laymen who do not know much of astrology we furnish below a ready-made table of Navamsa and Drekkana. Please note the following meanings.

The Roman figures denote the number of Rasis counted from Mesha as 1 is Mesha, 5 is Simha, 12 is Meena and so on. The top row in Roman figures denotes Rasis from Mesha onwards in which we wish to know Amsa parts. The first column is in degrees and minutes in those Rasis. The other columns from top to bottom denote Rasis counted from Mesha where those Amsas fall. For example, to know Drekkana of a Graha situated in Kanya between 10 and 20° see under Roman figure 6 and 2nd row showing No. 10, meaning 10th Rasi counted from Mesha, i.e. Makara and so Drekkana falls in Makara.

Similarly a Graha situated in Mithuna 15° finds its Navamsa in Kumbha as follows:

In Navamsa table in 3rd column find 4th row showing No. 10 which is Kumbha. In this way you can evaluate the two charts with a little practice.

Drekkana table

	Drekkanas											
Till	1	2	3	4	5	6	7	8	9	10	11	12
10-00	1	2	3	4	5	6	7	8	9	10	11	12
20-00	5	6	7	8	9	10	11	12	1	2	3	4
30-00	9	10	11	12	1	2	3	4	5	6	7	8

Table of Navamsa

	Navamsas											
Till	1	2	3	4	5	6	7	8	9	10	11	12
03-20	1	10	7	4	1	10	7	4	1	10	7	4
06-40	2	11	8	5	2	11	8	5	2	11	8	5
10-00	3	12	9	6	3	12	9	6	3	12	9	6
13-20	4	1	10	7	4	1	10	7	4	1	10	7
16-40	5	2	11	8	5	2	11	8	5	2	11	8
20-00	6	3	12	9	6	3	12	9	6	3	12	9
23-20	7	4	1	10	7	4	1	10	7	4	1	10
26-40	8	5	2	11	8	5	2	11	8	5	2	11
30-00	9	6	3	12	9	6	3	12	9	6	3	12

ॐ_Numberology_ॐ

We have our own system of numberals different from the one followed by the West. Still it would be advantageous sometimes to know that too which are as follows:

Graha	Numbers governed
Sy	1 & 4
Ch	2 & 7
Ma [Ke]	9
Bu	5
Gu	3
Sk	6
Sa [Ra]	8

Please remember always that Rahu is like Sani and Ketu like Mangal and so Rahu's No. is 8 while Ketu's No. is 9.

ॐ Chapter 3 ॐ

ॐ Akshara Shastra (Alphabetology) ॐ

The next and the most important item you have to learn is Akshara Nama (alphabetology) of Nakshatra Padas. We have already described that each Nakshatra has 4 Padas and also taught the mode of reading them from the degree positions in Rasis. We now give the alphabets assigned to each quarter.

ॐ_Alphabets of Nakshatra Padas_ॐ

P.S.: In the following it is more the pronounciation that is important than letters as it is the sound that counts more than letters and this can be perfectly stated in Sanskrit letters. When it has to be mentioned in other languages its real consonance should be explained and so when writing it is English we prefer to convey them through sound formed by more than one letter. In such cases it is only the sound formed by that word to be taken into consideration and not the letters. For proper guidance we give also the Sanskrit letters that may always be taken as correct one.

	Nakshatras		Sound of Padas				Devanagari[1]				IAST

27	Revati	Bu	They	Though	Cha	Chi	दे	दो	च	चि	de	do	ca	ci

[1] Devanagari font and IAST transcription have been added by editor, Chistabo. If you do not know what is this, simply ignore. If you want, you can cross-compare thoroughness of my 'addition' – there is original scan at the end of the document. If you compare 'original' sounds of Padas with IAST you can notice that sounds as given by original author (brilliant (bow!) Mr. Iyer) are mere phonetically expressed original Sanskrit 'letters' – Aksharas.

* This is closest match I could find (Sravana 4th Pada), but I strongly believe it is correct; [Ardra 3rd Pada] is missing from original pdf, this is 'direct translation'. Bear in mind I am only amateur student of Sanskrit.

P.S.: Letters of Abhijit Nakshatra are included under Sravana Nakshatra.

ॐ Some peculiarities in the application of alphabetology ॐ

Under our system of diagnosing the winner we make use of alphabetology and numerology. Alphabetology is used only to find Nakshatra Pada from the initial sound of the name of the horse. Its first letter and its first pronouncement (Uchharana) is important for us irrespective of what other letters of the name of the horse are. For example, for horse named 'Episode' we take its first pronouncement as 'A' [think phonetically] and not the first letter 'E' and so take it as Krittika 4th Pada. For 'Full Try' we take 'Pu' as in Sankrit there is not a letter conveying its real pronounciation and so as Hasta 1st Pada. In some cases the initial and the stressed pronounciation have both to be considered. For horse named 'Fragrance' take 'Pa' first of Uttaraphalguni 3rd Pada and then 'Ra' of Chitra 3rd Pada. For horse named 'Grey' take 'Gay' of Dhanista 4th Pada and 'Ray' of Swati 2nd Pada. In the case of a horse with more than one syllable take all syllables paying more value to the first. For horse named 'Neel Kamal' take 'Nee' ['Ni' actually] of first syllable of Anuradha 2nd Pada and then 'Ka' of Mrigashira 3rd Pada. When unimportant words are prefixed to the names of horses omit them and take only more important ones. They are of the type like 'The', 'Mr.' etc. that preceed the names.

ॐ Chapter 4 ॐ

ॐ Theories of spotting the Winners ॐ

We have so far discussed at length all the fundamentals needed for judgement of a winner in a race. We now go to the subject proper.

I divide this chapter into 4 sections each one dealing with a different theory of spotting the winner, and then finally conclude as to how to use them in toto or in preferrential order.

In a race it is only the **name of the horse** and its **card number** that are prominent both in toto and with the bookies. Mostly it is the card number that predominates. So any rule of detecting the winner should be based only on these 2 factors. As the card number is more prominent as the horse carries its number on its back we **attach more importance to card number** in our tests. In this connection we wish to caution the punters that they always long for a very simple rule understandable by even a layman. If the art was so simple then everyone would have gained and the glamour for race would have stopped. Just to please such punters there have been many simple rules formulated by easy authors with the result the authors having grown richer by the sale of their books while the punters have gone poorer. Be it remembered that any theory that is not based on Heavenly bodies is sure to fall to the ground. Test our theories based entirely on Heavenly bodies though a bit taxing and then see how it works.

As has been said it is with the aid of alphabetology and numerology that we find the winner and that the letter is founded on quite a different principle from what the westerners and their followers use. We count numbers taking account of Rasis counted from Lagna.

If you so desire you may also make use of the western system of numbers provided they also second the first arrived numbers.

Under alphabetology there are 2 methods. One based on Nakshatra Padas that we use in this text and other one based on groups of letters called Vargas which are as follows:

Group	Governed by
Vowels from AA to Aou	Sy
Kavarga (Ka to Gyna)	Ma
Chavarga (Cha to Engna)	Sk
Tavarga (Ta to NNa)	Bu
Thavarga (Tha to Na)	Gu
Pavarga (Pa to Ma)	Sa
Consonants from Ya to LLa	Ch

We have given these only for the sake of knowledge and they have not given full satisfaction in this case and so we leave it there. So alphabetology based on Nakshatra Padas is the one you have to master as at each stage we make use of it.

After stating all the necessary factors we will thereafter take up the spotting of winners by different modes as mentioned before.

P.S.: Whenever we state 'horse' please know that it is the horse occupying a particular Nakshatra Pada and when we say 'horse Lord' it means Lord of Nakshatra in which the horse is situated.

ॐ_Theory_A_ॐ

ॐ_General_method_or_Deha_method_ॐ

You have now to learn what is Deha and Jeeva. **Deha is outer body** and **Jeeva is internal Soul** which is more important than the outer body and naturally test applied on the principles of Jeeva is more valuable than the other.

In the case of a Graha or horse its Nakshatra Lord is Deha and Nakshatra Lord of this Deha is Jeeva.

Rule 1

See if Nakshatra Lord (Deha) of the horse aspects that horse. This is the first qualification for a winner.

OR

See if Nakshatra Lord of the horse aspects Lagna.

OR

See if Lord of Lagna aspects the horse.

When even one of above conditions is existing that horse has the capacity to win, but this alone is not sufficient.

Rule 2

See the **card number** of the horse and count as many Rasis as its card number, reckoning from Lagna Rasi or Rasi occupied by horse. If this Rasi is aspected or conjoined by Nakshatra Lord of the horse that horse wins. More certain when Nakshatra Lord conjoins than aspects and still more certain if this Graha's number as per western system is also the same as card number.

P.S.: Wherever we say **aspect** it always means and **includes conjunction** also and not vice versa. Also conjunctive effect is more powerful than aspective effect.

This is the first mode of judging the winner.

ॐ_Theory_B_ॐ

ॐ_Jeeva_method_ॐ

The next and more powerful method is to consider Nakshatra Lord of the horse called **Jeeva of the horse** which acts better than Deha which has been already discussed in Theory A. As we have already said Jeeva works more powerfully than Deha.

Rule 1

See if Jeeva Lord of the horse aspects Lagna.

OR

See if Jeeva Lord of horse aspects the horse.

OR

See if Lord of Lagna aspects horse.

Even when any one of the above rule exists that horse has the capacity to win but this alone in not sufficient. As before count as many Rasis as its card number from Lagna and horse Rasi. If these Rasis are aspected (aspect includes conjunction) by the said Jeeva Lord of the horse then say it wins.

This is the second method.

ॐ_Theory_C_ॐ

This is a very important test that none knows of and is not in any of the books. This is one taught by a Nadi upon which I have developed further by my own intuition. I furnish below a table which is formulated on a definite principle which I know but ordained not to reveal it out to others by that Nadi. By this method great flukes are captured. This depends on Nakshatra Lord of the horse. I call it **Nadi table**. In this table there are 2 significators (indicators) for each Graha and either may be used for detection of the winner as will be explained below.

If Nakshatra Lord of horse be		Then its 2 significators (indicators) are
01	**Sy**	Mangal - Guru
02	**Ch**	Chandr - Budh
03	**Ma**	Surya - Ketu
04	**Bu**	Guru - Budh
05	**Gu**	Ketu - Sani
06	**Sk**	Ketu - Sani
07	**Sa**	Surya - Mangal
08	**Ra**	Mangal - Surya
09	**Ke**	Sukr - Ketu

Mode of using this method

First find Nakshatra Lords of the two significators of the particular horse. Mark Rasi counted from Lagna and horse Rasi equal to its card number. If this Rasi is aspected by the above Nakshatra Lords of significators (one or both) then that horse wins and more certain if the horse Nakshatra Lord is one of them.

ॐ Theory D ॐ

ॐ On Lord of Lagna ॐ

We now narrate 4th and the last method of judging the winner.

Rule 1

See if Lord of Lagna aspects horse.

OR

See if Lord of horse aspects Lagna. Then that horse is likely to win but this alone will not suffice.

Rule 2

Locate Rasi counting from Lagna [and] horse Rasi [as] many as the card number of the horse and see if this Lord of Lagna aspects that Rasi. Then that horse wins.

Thus we have enumerated the above 4 salient tests. In all these methods whenever the card numbered Rasi counted from Lagna and horse Rasi is aspected by the concerned significators under each test that horse may be preferred.

ॐ Chapter 5 ॐ

ॐ Order of preferrence of tests A to D ॐ

Finally we conclude the subject by pointing out the order of preference of the above tests.

(01) Method stated in **Theory A and B are of paramount importance** and when both tests point out the same horse that wins. If they differ prefer the latter one.

(02) **Next** in order of importance **comes Theory C**. If this test coupled with any of the tests under Theory A or B tallies take it. If all 3 tests agree then that horse will surely win.

(03) Then **finally consider Theory D** as a last measure. If this and any of the above 2 tests concur then that horse wins. If all first 3 tests do not indicate the horse and final test points [it] out then consider that horse but cannot be guarranteed.

(04) In the absence of all the above tests sometimes if the horse itself is situated in a Rasi equal to its card number reckoned from Lagna that wins.

(05) When on the application of the above tests many horses answer it is better to leave off that race.

(06) When only 2 horses are pointing these tests they are the horses to be payed for Quinella. [A form of bet where the better must pick the first 2 finishers in a race without concern for the order of finishing.]

In this way you may spot out the winners. Finally as a precautionary measure I would like to caution the readers that though the theories stated by us are true and correct it is the **play of Almighty** to see that no human being should become a full-fledged Daivagna. As fate ordains this will certainly work well with one who is passing good period as seen from then running Dasha Bhukti in his life while in the case of the unlucky punter something or other tries to mislead from the real track. This is caused by such punter preferring a failing horse to the winning one when more than one horse is indicated in the race. In such cases such unlucky punters will do well to reject races that indicate alternatives and confine only to those pointing out only one horse though there be only one event in the day.

With this little piece of sincere advice we stay our hands at this stage and hope to come forth with still better methods, if God blesses so, in future.

In confirmation of the above tests we cite hereafter one race day in each centre with full discussion to enable our readers to follow our methods and finally wish the readers good luck and goodbye.

May God bless the readers.

ॐ Illustrations ॐ

As we have already worked out the chart of 04.10.1970 at 02:30 pm IST at Hyderabad we shall discuss the races on that day at Hyderabad. Just to throw full light on the theory of picking up the winners in a race we discuss at full length the merits of all horses that ran in the first race and thereafter we take up only winners in each race and discus the theories.

1st race; Lagna is Makara

Card No.	Horse	Horse Nakshatra & Rasi		
01	Young Prince	Krittika	4	Vrishabh
	or	Jyesta	2	Vrischika
02	Episode	Krittika	4	Vrishabha
03	Fish Pilot	Uttara	4	Kanya
04	Parnasus	Uttara	3	Kanya
05	Celestial Glory	P. Bhadra	1	Kumbha
06	Ardent Star	Krittika	1	Mesha
07	Abhimanyu	Krittika	1	Mesha

Thus there are 6 horses running in this race. Now let us discuss one by one under all the tests narrated before.

No. 01 Young Prince

NTP 04.10.1970 Hyder (V-1)

Theory A

If you take this first sound 'A' Nakshatra of this horse becomes Krittika 2 in Vrishabha. Its Lord Surya does not aspect either this Lagna or the horse in Virshabha or the Card No. 1 situated in Makara. Similarly if the sound is taken as 'Ya' falling in Jyesta 2 in Vrischika even then its Lord does not aspect any of these elements and so this test does not indicate this horse.

Theory B

As 'Young' directs mostly to 'Ya' we take this alone hereafter.

Deha of this horse being Budh its Nakshatra Lord which becomes Jeeva of this horse is Surya who also does not aspect any of the above chief points and so even this test does not life the horse.

Theory C

Indicators of Budh, Deha of this horse, are Guru and Budh and their Nakshatra Lords are Rahu and Surya who also do not indicate.

Theory D

Sani Lord of Lagna aspects Lagna and card No. but not the horse and so this also does not indicate. Thus all tests having failed this horse failed.

No. 02 Episode; first sound is 'A' - Krittika in Vrishabha

Theory A

Surya, Deha of horse, does not aspect either the horse or Lagna and card No. situated in 2nd from Makara Lagna i.e. Kumbha so failed.

Theory B

Nakshatra Lord of this Surya being Chandr who becomes Jeeva of this horse also does not aspect the horse or Lagna or card No. So failed.

Theory C

Indicators of Surya are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu. Rahu is in card No. Rasi and so it is probable to come up but does not aspect Lagna or horse. So failed.

Theory D

Sani Lord of Lagna does not aspect either the horse or card No. but aspects Lagna. So it also failed.

No. 03 Fish Pilot; first sound is 'P' - Uttara 4 in Kanya

Theory A

Deha Lord Surya conjoins horse and also aspects Meena which is 3rd from Lagna and hence the card No. So good.

Theory B

Lord of Surya, Chandr, becoming Jeeva does not aspect Lagna, horse or card No. So fails.

Theory C

Indicators of Surya are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu who also do not aspect any of the principlal elements. So failed.

Theory D

Sani Lord of Lagna aspects Lagna but not the horse situated in Kanya nor its card No. situated in Meena and so it is not certain.

In our experience Theory B is more powerful than A for the simple reason that Jeeva is more valuable than Deha. Moreover this horse has another syllable with 'Pay' as its sound which does not at all act and so we leave off this horse.

No. 04 Parnasus; sound is 'Pa' - Uttaraphalguni 3 in Kanya

Theory A

Surya, Deha Lord, conjoins horse but does not aspect any other element. So doubtful.

Theory B

Jeeva Graha Chandr aspects card No. Rasi of Mesha which is in 4th from Makara Lagna - good. But it does not aspect other elements.

Theory C

Indicators of Surya are Mangal and Guru whose Lords are Sukr and Rahu. Both aspect card No. Rasi.

Theory D

Sani Lord of Lagna is both in card No. Rasi and also aspecting Lagna and has become most powerful. Thus in this case all the above tests are satisfied and so this horse won and paid a dividend of Rs. 20.

No. 05 Celestial Glory; first sound is 'Say' of Purvabhadra 1 in Kumbha

Theory A

Guru, Deha Lord, no doubt aspects the horse situated in Kumbha but not its card No. Rasi. So doubtful.

Theory B

Lord of this Guru is Rahu Jeeva of horse. Though in Rasi of horse it does not aspect the card No. Rasi of Vrishabha, 5th from Lagna. So this is also doubtful. Nor does it aspect Lagna.

Theory C

Indicators of Guru are Ketu and Sani whose Nakshatra Lords are Ketu and Surya who do not aspect either the horse, Lagna or card No. Rasi.

Theory D

Sani Lord of Lagna though aspecting Lagna which is a common feature in all cases does not aspect other elements. So it failed.

No. 06 Ardent Star; first sound 'Aa' - Krittika 1 of Mesha

No. 07 Abhimanyu; first sound 'Aa' - Krittika 1 of Mesha

The two horses sound alike with the difference that 6th horse has another syllable 'Star' with sound 'Saw' and 'Ta' of Satabisha 2 and Purvaphalguni 2 respectively.

Theory A

Surya Deha Lord does not aspect any of the principal elements and so fails.

Theory B

Chandr Jeeva of the horses also does not aspect any of the above elements and so fails.

Theory C

Indicators of Surya are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu who also do not aspect any of the principal elements and so fail and so these two horses failed to win.

Thus from the analysis of all the horses in race it is only No. 04 Parnasus that has stood the maximum test and it has won. In this way you have to judge the winner.

Summarising, we see the following:

(01) If all 4 tests are satisfied then that horse will surely win.
(02) Among the entire set that which satisfies majority of tests and principally first 3 major tests wins.
(03) If at least two out of first 3 tests are satisfied then that horse wins.
(04) Theories B and C are most powerful of all.
(05) Sometimes when the horse is in Lagna that wins.
(06) In the absence of all tests if in all tests Nakshatra Lord of the horse plays parts then that wins.
(07) Malefics raising the horse pay high dividends while benefics low.

2nd race; 03:10 pm; Makara Lagna

*Pushkar, also: Mdi, HoL, ArL, Ura, Bv8, B12

No. 06 [05] Elegant Boy won and paid Rs. 24.

This horse has 2 syllables. The first has the sound 'A' of Krittika 4 of Vrishabha and the second has the sound of 'Ba' of Moola 3 of Dhanus. Let us discuss one by one.

First syllable with sound 'A'

Theory A

Surya Deha Lord of horse bears nothing.

Theory B

Chandr Jeeva of horse in 6th from horse and hence card No. 6 won. [By authors calculation Chandr is in 7 Tula.]

Theory C

Indicators of Surya are Ketu and Guru whose Nakshatra Lords are Sukr and Rahu. Sukr in 6th from horse and hence card No. 6 won.

Theory D does not indicate Thus theories B & C have partially satisfied.

Second syllable 'Ba'

Theory A

Ketu Deha Lord aspects 6th from horse and so No. 6 won.

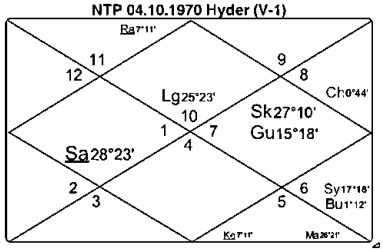

Theory B

Ketu Jeeva also aspects 6th Rasi from horse Rasi and so No. 6 won.

Theory C

Indicators of Ketu are Sukr and Ketu whose Nakshatra Lords are Guru and Ketu of whom Guru aspects 6th Rasi from Lagna and Ketu aspects 6th Rasi from horse.

NTP 04.10.1970 Hyder (V-1)

Theory D

Sani Lord of Lagna aspects 6th Rasi from Lagna. Thus in this case the card No. Rasis are aspected by all tests and more than all Ketu predominates in all cases. We have already said that when a single Graha predominates in all tests that horse wins even when [only] one solid test is satisfied.

As many tests under both syllables are satisfied it won.

NTP 04.10.1970 Hyder (V-1)

3rd race; 03:45 pm; Kumbha Lagna

No. 03; Golden Haven won and paid Rs. 24.

This has 2 syllables. The sound of the first syllable is 'Go' of Satabisha 1 and the second syllable is of 'Ha' of Punarvasu 3 of Mithuna. Let us discuss one by one.

First syllable 'Go' of Satabisha 1 of Kumbha

Theory A

Rahu Deha in Lagna and with horse also in Lagna aspecting 3rd Rasi both from Lagna and horse. What more is needed than this one full test to bank on this horse even without looking to the other tests.

Theory B

Even Jeeva Lord is Rahu who repeats the above conditions and so still more assured.

Theory C

Indicators of Rahu are Mangal and Surya and their Nakshatra Lords are Sukr and Chandr. Both these Grahas aspects 3rd Rasi from Lagna and horse. Still further assured.

Theory D

See still more assured condition of Lord of Lagna (Sani) in 3rd Rasi both from Lagna and horse and the other Lord Rahu in Lagna and with horse aspecting 3rd Rasi both from Lagna and horse. What more is necessary than this to fully bank on this one horse.

Thus each one of the tests has fully endorsed its success. When it is satisfied in this manner on the first syllable itself we need not examine the other syllable and yet we shall see how that works.

Second syllable sound 'Ha' of Punarvasu 3 in Mithuna

Theory A

Guru Deha Lord aspects both the horse and Lagna as well 3rd Rasi from Lagna and horse which again fully assures on this single test alone.

Theory B

Jeeva Graha Rahu acts like what is described in Theory A and again fully assures its win even on this single test.

Theory C

Indicators of Guru are Ketu and Sani whose Nakshatra Lords are Rahu and Ketu. Both aspect Lagna and Rahu acts fully on all points as already described.

Theory D

Sani Lord of Lagna is in 3rd Rasi both from Lagna and horse and the other Lord of Lagna Rahu is in Lagna and with horse aspecting 3rd Rasi from Lagna and so even this test is singly satisfactory. Thus you see that not only each test on each syllable satisfies all conditions and also one single Graha Rahu predominates in all tests and so where is the least doubt of its first rate success. You see the best example here showing the brilliancy of our theories.

4th race; at 04:20 pm; Kumbha Lagna

No. 05 Scottish Venture won and paid Rs. 19.

This horse has two-syllabled name and the first syllable 'Scottish' is a stressed one (Ottaksharam) in that it gives rise to 2 sounds, one primary of 'Saw' of Satabisha 2 in Kumbha and the other 'Ka' the stressed one of Mrigashira 3 in Mithuna. The second syllable 'Venture' has the sound of 'Way' of Mrigashira 1 in Vrishabha. We shall consider one by one and see.

NTP 04.10.1970 Hyder (V-1)

'Saw' of Satabisha 2

Theory A

Deha Lord Rahu is in Lagna with horse and so good.

Theory B

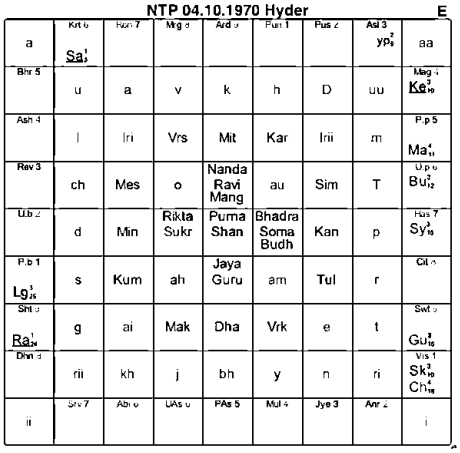

Jeeva Lord Rahu acts likewise as above and so good.

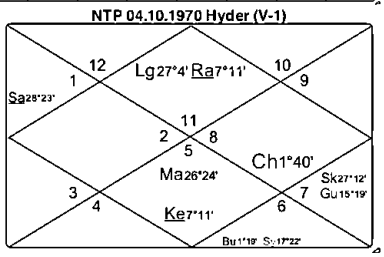

Theory C

Indicators of Rahu are Mangal and Surya whose...

Note: Missing page No. 50, 51.

Page No. 52

5th race; at 04:55 pm; Kumbha Lagna

No. 01 Foursmouth won and paid Rs. 10.

Its sound is 'Po' of Chitra 2 in Kanya.

Theory A

Mangal Deha Lord aspects Lagna and No. 1 from Lagna and so No. 1 won.

Theory B

Sukr Jeeva Lord does not indicate.

Theory C

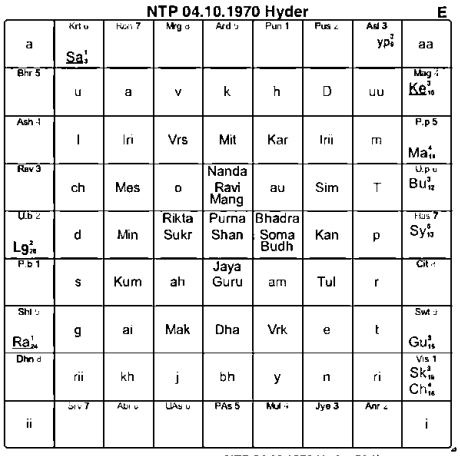

Indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Chandr and Ketu. Ketu is aspecting Lagna and No. 1 Rasi from Lagna.

Theory D

Rahu Lord of Lagna in Lagna and in 1st Rasi from Lagna.

Though Theory B does not indicate as other tests have proved good the horse won.

6th race; at 05:30 pm; Meena Lagna

No. 04 Concord won and paid Rs. 19.

Its sound is 'Ka' of Mrigashira 3 in Mithuna.

Theory A

Mangal Deha Lord is aspecting Lagna and the horse itself is in 4th Rasi from Lagna which is by itself sufficient to bank the winner.

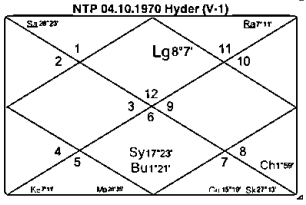

Theory B

Jeeva Sukr does not indicate.

Theory C

Indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Chandr and Ketu. Neither indicates.

Theory D

Guru Lord of Lagna aspects both the horse and 4th Rasi from Lagna and so has become strong.

Though tests B and C did not indicate the most powerfully one being the horse itself in card No. Rasi backed with test D has lifted the horse.

Thus we have discussed all the animals that ran in the race and shown the method of dissection. You will thus see some events are very definite and may be banked with dead certainty. With a little practice you will pick up all the winners of this day and strike the Jackpot too.

Just to attract the readers it is the habit of some authors to cite particular races that suit their theories but we have taken at random any race that has come to our hand. Still to remove your doubts, if any, we wish to deal with other centres too. Now that we have the chart for 04.10.1970 and there was also Poona races on that day we shall take up those races too and discuss.

Poona races on Sunday, 04.10.1970 [using LMT[2] for charts]

NTP 04.10.1970 Poona E

a	Sa;							aa
	u	a	v	k	h	D	uu

	rii	kh	j	bh	y	n	ri	
ii		Lg						i

1st race; at 02:00 pm; Makara Lagna

No. 01 Markand won and paid Rs. 16.

Its sound is 'Ma' of Magha 1 in Simha.

Theory A

Ketu Deha Lord is with horse and in this Rasi from horse Rasi and so won.

Theory B

Likewise is the case [with] Ketu Jeeva Lord too.

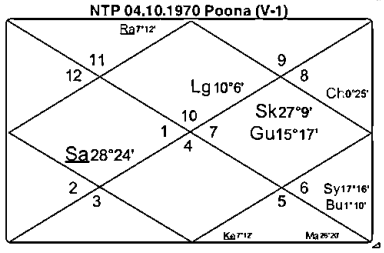

Theory C

Indicators of Ketu are Sukr and Ketu whose Nakshatra Lords are Guru and Ketu. Ketu as before acts well.

Theory D

Sani Lord of Lagna aspects Lagna and also 1st Rasi from Lagna. Note Ketu is common in many tests and most of the important tests has lifted the horse.

NTP 04.10.1970 Poona (V-1)

2nd race; at 02:30 pm; Makara Lagna

NTP 04.10.1970 Poona E

a	Sa;							aa
	u	a	v	k	h	D	uu	
	I	Iri	Vrs	Mit	Kar	Irii	m	
	ch	Mes	o	Nanda Ravi Mang	au	Sim	T

	s	Kum	ah	Jaya Guru	am	Tul	r	
Ra	g	ai	Mak	Dha	Vrk	e	I	
	rii	kh	j	bh	y	n	ri	
ii	Lg							i

No. 01 Palace Girl won and paid Rs. 15.

This horse has two-syllabled name the first one sounding 'Pa' of Uttaraphalguni 3 in Kanya and the second sounding 'Ga' of Dhanista 1 in Makara. Let us consider one by one.

'Pa' of Uttaraphalguni 3 in Kanya

Theory A

Surya Deha Lord [is] with horse and in 1st Rasi from horse lifting No. 1. This one test will do.

Theory B

Chandr Jeeva Lord does not act.

Theory C

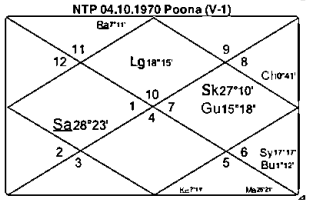

Indicators of Surya are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu. They also do not indicate.

Theory D

Sani Lord of Lagna aspects Lagna and also 1st Rasi from Lagna.

Thus the powerful A test coupled with D lifted the animal.

NTP 04.10.1970 Poona (V-1)

'Ga' of Dhanista 1 in Makara

Theory A

That the horse itself is in Lagna is of utmost significance though Deha Lord Mangal has not acted.

Theory B

Sukr Jeeva Lord does not indicate.

Theory C

Indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Chandr and Ketu. Both do not act.

Theory D

Sani Lord of Lagna is aspecting Lagna which is also 1st Rasi from Lagna and horse and so this test alone has become very strong and that coupled with the horse itself being in Lagna and being also No. 1 this horse has won.

Thus both the syllables are pointing to success.

[2] LMT is Local Mean Time. For previous charts I have used IST time (Indian Standard Time - GMT +5 h 30 m).

NTP 04.10.1970 Poona E

a	Sa$^{1}_{3}$						yp$^{2}_{4}$	aa
	u	a	v	k	h	D	uu	Ke$^{3}_{10}$
	l	Iri	Vrs	Mit	Kar	Irii	m	Ma$^{4}_{11}$
	ch	Mes	o	Nanda Ravi Mang	au	Sim	T	Bu$^{5}_{12}$

	s	Kum	ah	Jaya Guru	am	Tul	r	
Ra$^{1}_{24}$	g	ai	Mak	Dha	Vrk	e	t	Gu$^{3}_{18}$
Lg$^{2}_{23}$	rii	kh	j	bh	y	n	ri	Sk$^{3}_{16}$ Ch$^{4}_{18}$
ii								

3rd race; at 03:00 pm; Makara Lagna

No. 03 Seven Wonders won and paid Rs. 16.

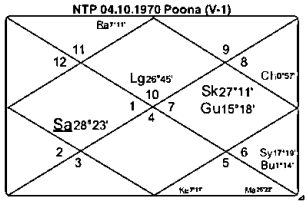

This animal has two syallables of which the first sound is 'Say' of Purvabhadra 1 of Kumbha and the second one is 'Va' of Rohini 2 in Vrishabha. We shall consider one by one.

'Say' of Purvabhadra 1 in Kumbha

Theory A

Guru Lord of Deha is aspecting both the horse as well 3rd Rasi from the horse and as per western system Guru bears the numeral 3. This one test is sufficient to back on this horse.

Theory B

Rahu Jeeva Lord is with horse and also aspecting 3rd from horse where also Sani is. Note Rahu is like Sani. Even this test is strong.

Theory C

The indicators of Guru are Ketu and Sani whose Nakshatra Lords are Ketu and Surya. Ketu aspects the horse and as Mangal is aspecting the horse and 3rd Rasi from Lagna and Ketu being like Mangal the good of Ketu is seen even here.

Theory D

Sani Lord of Lagna is aspecting Lagna and is in 3rd Rasi from horse.

As all the above tests are strongly seen this horse has won.

'Va' of Rohini 2 in Vrishabha

Theory A

Chandr Lord of Deha has no action here.

Theory B

Guru Jeeva Lord does not act.

Theory C

Indicators of Chandr are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu. None act.

Theory D

Even here there is no indication.

Thus we see its second syllable not at all acting which clearly shows that first syllable is of greatest importance. As the first syllable has superbly acted the animal has won.

NTP 04.10.1970 Poona E

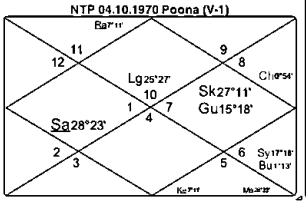

a	Sa$^{1}_{3}$						yp$^{2}_{4}$	aa
	u	a	v	k	h	D	uu	Ke$^{3}_{10}$
	l	Iri	Vrs	Mit	Kar	Irii	m	Ma$^{4}_{11}$

Lg$^{2}_{23}$	rii	kh	j	bh	y	n	ri	Sk$^{3}_{16}$ Ch$^{4}_{18}$
ii								i

4th race; at 03:30 pm; Makara Lagna

[Mr. Iyer is using IST time, not LMT]

No. 09 Ablukh Waroo won and paid Rs. 18.

It has again two syllables of which the first one sounds as 'AA' of Krittika 1 in Mesha and the sound as 'Va' of Rohini 2 in Vrishabha. We shall consider one by one.

'AA' of Krittika 1 in Mesha

Theory A

Surya Deha Lord is 9th Rasi from Lagna and so lifted No. 9.

Theory B

Chandr Jeeva Lord is aspecting the horse.

Theory C

Indicators of Surya are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu. Both are aspecting the horse.

Theory D

Lord of Lagna is aspecting Lagna.

Thus the first 3 tests are confirming both the card No. and horse. So wins.

'Va' of Rohini 2 in Vrishabha

Theory A

Chandr Deha Lord does not indicate.

Theory B

Guru Jeeva Lord also does not indicate.

Theory C

Indicators of Chandr are Chandr and Budh whose Nakshatra Lords are Guru and Surya. Surya is in 9th Rasi from Lagna and so lifted No. 9.

Though the second syllable is feebly indicating its first syllable being of greater importance and all tests coming up well with it has made the horse win.

5th race; at 04:00 pm; Kumbha Lagna

NTP 04.10.1970 Poona E

a	Sa$^{1}_{}$							aa
	u	a	v	k	h	D	uu	Ke$^{3}_{10}$
	I	Iri	Vrs	Mit	Kar	Irii	m	Ma$^{4}_{11}$
	ch	Mes	o	Nanda Ravi Mang	au	Sim	T	Bu$^{5}_{12}$
	d	Min	Rikta Sukr	Purna Shan	Bhadra Soma Budh	Kan	p	Sy$^{3}_{10}$
	s	Kum	ah	Jaya Guru	am	Tul	r	
	g	ai	Mak	Dha	Vrk	e	t	Gu$^{3}_{10}$
	ni	kh	j	bh	y	n	ri	Sk$^{3}_{10}$ Ch$^{4}_{11}$
	ii	Shr 7	Abi 6	UAs 5	PAs 5	Mul 4	Jye 3	Anr 2 i

No. 04 Rappare won and paid Rs. 8.

Its sound is 'Raw' of Chitra 3 in Tula.

Theory A

Mangal Deha Lord aspects Lagna.

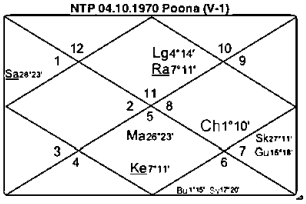

Theory B

Sukr Jeeva Lord is with horse.

Theory C

Indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Chandr and Ketu. Chandr conjoins the horse and Ketu aspects both Lagna and horse and also 4th Rasi from Lagna satisfying all conditions and so this one test will do to lift it.

NTP 04.10.1970 Poona (V-1)

Theory D

Rahu Lord of Lagna is in Lagna. As Sani the other Lord of Lagna is aspecting the horse and 4th Rasi from horse this test is also strong as Rahu acts like Sani.

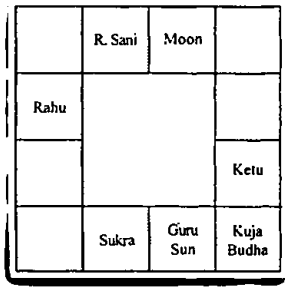

Thus all the tests having answered in one way or the other and some of them satifying all aspects the horse has won.

This is another instance to remember that Rahu is like Sani and Ketu like Mangal.

We will now take up another illustrations.

Poona races held on 18.10.1970

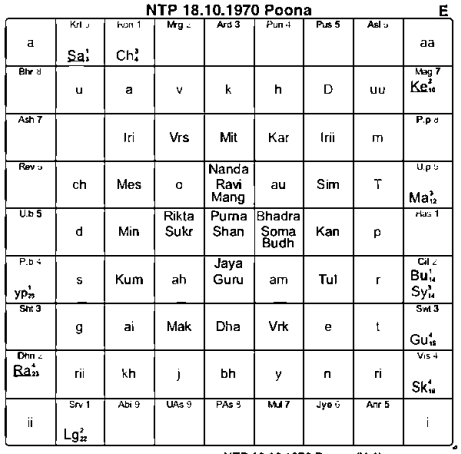

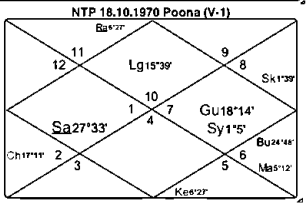

The chart for the day stands as follows.

Nakshatra Lords of Grahas are as follows:

Grahas	Nakshatra Lords
Sy	Ma
Ch	Ch
Ma	Sy
Bu	Ma
Gu	Ra
Sk	Gu
Sa	Sy
Ra	Ma
Ke	Ke

With these Data we go to the subject proper.

1st race; at 02:00 pm; Makara Lagna

No. 04 Tej-e-Shahi won and paid Rs. 10.

This has 3 syllables of which the second one 'E' may be ignored as it is of minor nature and the other two only considered. The first syllable sounding 'Ta' is of Purvaphalguni 2 in Simha while the third syllable sounding 'Sha' may be considered as being either of Hasta 2 in Kanya or of Sravana 4 in Makara as there are 2 'Shas'; one in Kanya of a stress letter and the other of light nature in Makara.

'Ta' of Purvaphalguni 2 in Simha

Theory A

Sukr Deha Lord is actually in 4th Rasi from horse which by itself is strong.

Theory B

Guru Jeeva Lord is aspecting 4th Rasi from Lagna thus lifting No. 4.

Theory C

Indicators of Sukr are Ketu and Sani whose Nakshatra Lords are Ketu and Surya. Ketu with horse and Surya aspecting 4th Rasi from Lagna.

Theory D

Sani Lord of Lagna aspects Lagna and is actually in 4th from Lagna thus lifting No. 4.

So Taj has become very strong.

'Sha' of Hasta [2] in Kanya

Theory A

Chandr Deha Lord does not act.

Theory B

Chandr Sookshma Lord does not act.

Theory C

Indicators of Chandr are Chandr and Budh whose Nakshatra Lords are Chandr and Mangal. Mangal is with horse and also aspects 4th Rasi from horse and also 4th Rasi from Lagna and thus this one test has proved very strong.

Theory D

Lord of Lagna is in 4th from Lagna aspecting Lagna. Strong indication for No. 4.

'Sha' of Sravana [Abhijit 4] in Makara

Theory A

Horse it itself in Lagna which is strong.

Theory B

Jeeva Lord Chandr does not act.

Theory C

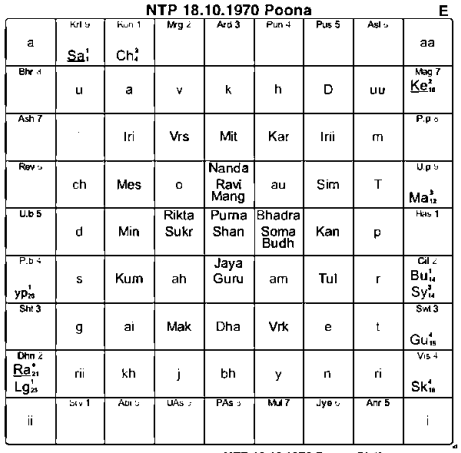

Indicators of Chandr are Chandr and Budh whose Nakshatra Lords are Chandr and Mangal.

Theory D

Sani Lord of Lagna is not only aspecting Lagna but also horse and is also situated in 4th from Lagna and horse. This one test will suffice to lift the horse. So it proves that the letter 'Sha' of Sravana has to be preferred for this horse.

As both the syllables have proved successful we have sorted out the winner in this case.

2nd race; at 02:30 pm; Makara Lagna

No. 04 Fabiha won and paid Rs. 8.

Its sound is 'Pa' of Uttaraphalguni 3 in Kanya.

Theory A

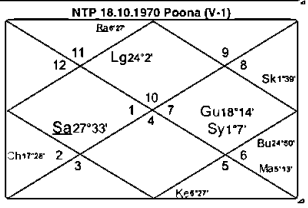

Surya Deha Lord aspects 4th Rasi from Lagna and hence No. 4 came up.

Theory B

Mangal Jeeva Lord is with horse and is aspecting 4th Rasi both from Lagna and horse. This one test will suffice.

Theory C

The indicators of Surya are Mangal and Guru whose Nakshatra Lords are Surya and Rahu. Surya aspects 4th Rasi from Lagna and so also Rahu.

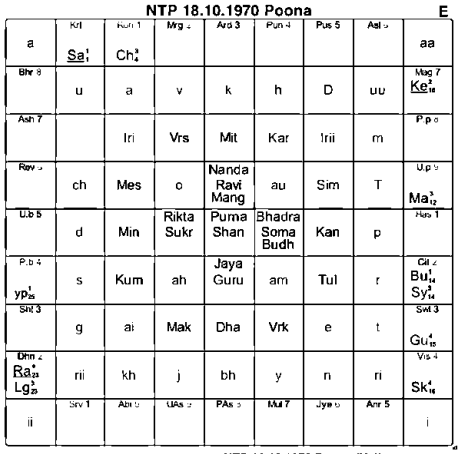

Theory D

Sani Lord of Lagna aspecting Lagna and in 4th from Lagna is itself a good indicator.

Thus all tests have been satisfactory.

3rd race; at 03:00 pm; Kumbha Lagna

No. 13 Mosum Bahar won and paid Rs. 542.

This has again two syllables the first sounding 'Mo' of Purvaphalguni 1 in Simha and the second sounding 'Ba' of Moola 3 in Dhanus. Let us consider both.

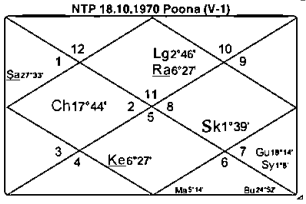

'Mo' of Purvaphalguni 1 in Simha

Theory A

Sukr Deha Lord does not act.

Theory B

Guru Jeeva Lord is aspecting Lagna and 13th Rasi from Lagna which is Lagna itself.

Theory C

Indicators of Sukr are Ketu and Sani whose Nakshatra Lords are Ketu and Surya. Ketu aspects Lagna and 13th Rasi from Lagna and also is with horse in 13th numbered Rasi from horse which is again Simha. This one test will do to lift the horse and since Ketu the great malefic has lifted it has paid high dividend.

Theory D

Rahu as Lord of Lagna is in Lagna 13th Rasi from Lagna and also aspecting the horse situated in Simha and so has lifted the horse.

'Ba' of Moola 3 in Dhanus

Theory A

Ketu Deha Lord is aspecting Lagna and also 13th Rasi from Lagna which is Lagna itself.

Theory B

Ketu Jeeva Lord also acts as above.

Theory C

The indicators of Ketu are Sukr and Ketu of whom Ketu again acts. Thus Ketu has been predominate even here and has lifted the horse and paid very high dividend.

NTP 18.10.1970 Poona E

a		Ch$^{3}_{4}$						aa

	g	ai	Mak	Dha	Vrk	e	t	
	rii	kh	j	bh	y	n	ri	
								i

4th race; at 03:30 pm; Kumbha Lagna

No. 09 Cipriano won and paid Rs. 41.

Its sound is 'See' of Satabisha 3 in Kumbha.

Theory A

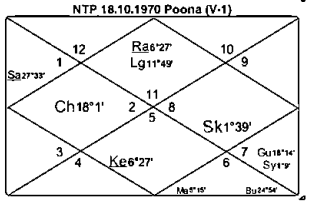

Rahu Deha Lord is in Lagna and with horse. Note horse in Lagna itself - a good chance to win. Sani is aspecting 9th Rasi from Lagna and horse and as Rahu is like Sani it is as if Rahu himself is aspecting 9th and so this one test itself will do to back this horse.

Theory B

Mangal Jeeva Lord does not act.

Theory C

NTP 18.10.1970 Poona (V-1)

Indicators of Rahu are Mangal and Surya whose Nakshatra Lords are Surya and Mangal. Surya in 9th from Lagna and horse thus lifting No. 9.

Theory D

Rahu as Lord of Lagna is in Lagna and with horse which by itself is the best of consideration for a sure win. As Sani is aspecting 9th from Lagna and horse as Lord of Lagna it is all the more sure test.

Thus many a test proving best the horse has won which is easy to select.

NTP 18.10.1970 Poona E

a		Ch$^{3}_{4}$						aa
	u	a	v	k	h	D	uu	
Ash 7		Iri	Vrs	Mit	Kar	Irii	m

	g	ai	Mak	Dha	Vrk	e	t	
	rii	kh	j	bh	y	n	ri	
								i

5th race; at 04:00 pm; Kumbha Lagna

No. 04 Multigem won and paid Rs. 14.

Its sound is 'Ma' of Magha 1 in Simha.

Theory A

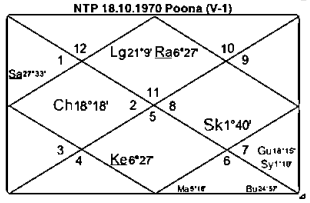

Ketu Deha Lord with horse and aspecting Lagna and also 4th Rasi from Lagna. This one test will do to lift the horse.

Theory B

Jeeva Lord is also Ketu who also acts like above and when tests A and B have both been strong and sufficient no other test [is] necessary.

Theory C

NTP 18.10.1970 Poona (V-1)

Indicators of Ketu are Sukr and [Ketu], their Nakshatra Lords are Guru and Ketu when again this Ketu acts fully as described above. Guru also aspects Lagna.

Theory D

Rahu as Lord of Lagna is in Lagna and also aspecting 4th Rasi from horse i.e. Vrischika and also aspecting horse in Simha. What more is needed than these tests to play on this horse even Lakhs.

NTP 18.10.1970 Poona E

a		Ch$^{3}_{4}$						aa
	u	a	v	k	h	D	uu	
Ash 7		Iri	Vrs	Mit	Kar	Irii	m	
	ch	Mes	o	Nanda Ravi Mang	au	Sim	T

	g	ai	Mak	Dha	Vrk	e	t	
	rii	kh	j	bh	y	n	ri	
								i

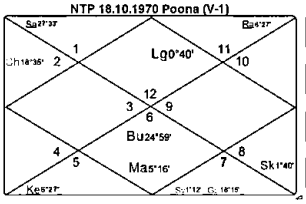

6th race; at 04:30 pm; Kumbha Lagna

No. 05 Prince Manoj won and paid Rs. 13.

There are 3 sounds here. The first one is 'P' and the second of 'Ri' of the first syllable and 'Ma' of the second syllable. We discuss all.

'Pa' of Uttaraphalguni 4 in Kanya

NTP 18.10.1970 Poona (V-1)

Theory A

Surya Deha Lord does not act.

Theory B

Mangal Jeeva Lord is in horse Rasi.

Theory C

Indicators of Surya are Mangal and Guru whose Nakshatra Lords are Surya and Rahu. Sani aspects 5th from Lagna and so it gets transferred to Rahu by reason of Rahu like Sani.

Theory D

Lord of Lagna (Sani) is aspecting 5th from horse.

'Ri' of Chitra 4 in Tula

Theory A

Mangal Deha Lord does not act.

Theory B

Surya Jeeva Lord is in horse Rasi.

Theory C

The indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Mangal and Ketu. Ketu aspects both Lagna and 5th Rasi from horse and also the horse and so this test has become strong and can by itself lift it.

Theory D

Sani Lord of Lagna aspects the horse and 5th Rasi from Lagna and Rahu Lord of Lagna also is in 5th from the horse.

'Ma' of Magha 1 in Simha

Theory A

Ketu Deha Lord is in horse Rasi aspecting Lagna. This one will do to lift the horse.

Theory B

Jeeva Lord Ketu also acts as above. Thus the two important theories have proved best.

Theory C

Indicators of Ketu are Sukr and Ketu whose Nakshatra Lords are Guru and Ketu. Again even here Ketu acts as above. Guru aspects both Lagna and 5th Rasi from Lagna.

Theory D

Rahu Lord of Lagna is in Lagna and also aspects the horse in Simha. As Sani aspects 5th from Lagna so also Rahu is qualified.

Thus we see both the syllables acting strong to lift the horse.

7th race; at 05:00 pm; Meena Lagna

No. 04 Guna Sundari won and paid Rs. 25.

This has two syllables with 'Gu' as first sound and 'Su' as second sound.

'GU' of Dhanista 3 in Kumbha.

Theory A

Mangal Deha Lord is aspecting Lagna.

Theory B

Surya Jeeva Lord does not act.

Theory C

Indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Mangal and Ketu. As Mangal aspects Lagna so also follows that of Ketu (Ketu [is] like Mangal).

Theory D

Guru Lord of Lagna aspects 4th from Lagna and horse. Thus there is hope of its win by the first syllable.

'Su' of Satabisha 4 in Kumbha

Theory A

Rahu Lord of Deha is with horse.

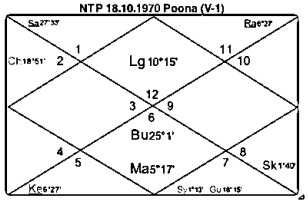

Theory B

Mangal Jeeva Lord is aspecting the horse and Lagna.

NTP 18.10.1970 Poona E

a		Ch$^{3}_{4}$						aa
	u	a	v	k	h	D	uu	
		Iri	Vrs	Mit	Kar	Iri	m	
	ch	Mes	o	Nanda Ravi Mang	au	Sim	T	
	d	Min	Rikta Sukr	Purna Shan	Bhadra Soma Budh	Kan	p	
	s	Kum	ah	Jaya Guru	am	Tul	r	
	g	ai	Mak	Dha	Vrk	e	t	
	rii	kh	j	bh	y	n	ri	
ii								i

NTP 18.10.1970 Poona (V-1)

Theory C

The indicators of Rahu are Mangal and Surya whose Nakshatra Lords are Surya and Mangal. As before Mangal acts both ways.

Theory D

Guru Lord of Lagna is not only aspecting the horse but also 5th Rasi from Lagna and so fully assured. So the horse wins by both syllables.

NTP 18.10.1970 Poona

a		Ch						aa
	u	a	v	k	h	D	uu

	g	ai	Mak	Dha	Vrk	e	t	
	rii	kh	j	bh	y	n	ri	
ii								

8th race; at 05:30 pm; Meena Lagna

No. 06 The Angel won and paid Rs. 11.

As we have at the outset said omit the unimportant prefix 'The' and take only the principal name - 'Angel' whose sound is 'A' of Krittika 4 of Vrishabha.

Theory A

Surya Deha Lord is in 6th Rasi from horse which itself is chief indicator of success.

Theory B

Mangal Jeeva Lord aspects Lagna. Thus theories A & B combined, the horse and the card No. are under aspect and this will do for winning.

Theory C

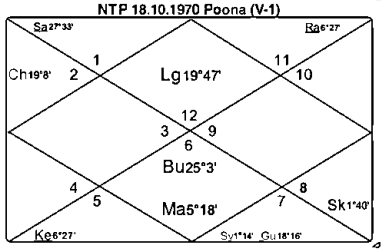

The indicators of Surya are Mangal and Guru whose Lords are Surya and Rahu. Again Surya is in 6th from horse Rasi and as also Lord of horse. Rahu aspects 6th Rasi from Lagna and so powerful even by this test.

So the horse cannot but win.

Thus Poona races on one day have been fully discussed with full success with our tests.

We take up another centre.

NTP 18.10.1970 Poona (V-1)

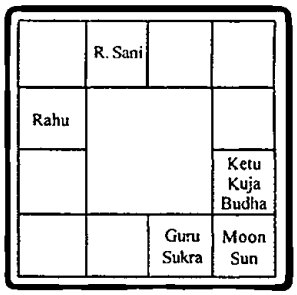

Calcutta on 30.09.1970.

The chart on that day is as follows.

Nakshatra Lords:

Grahas	Nakshatra Lords
Sy	Ch
Ch	Ch

ii								i

1st race; at 02:30 pm; Makara Lagna

No. 03 Harini won and paid Rs. 37.

Its sound is 'Ha' of Punarvasu 3 in Mithuna.

Theory A

Guru Deha Lord aspects horse and by chance the Western numeral of Guru is also 3 and so No. is strong in this race.

Theory B

Rahu Jeeva Lord is aspecting 3rd Rasi from horse.

Theory C

The indicators of Guru are Ketu and Sani whose Nakshatra Lords are

Ketu and Surya. Mangal the duplicate of Ketu is aspecting 3rd Rasi from Lagna and Ketu himself in 3rd from horse Rasi.

Theory D

Sani Lord of Lagna is aspecting Lagna and also horse.

Thus all tests being satisfied the horse won.

2nd race; at 03:00 pm; Makara Lagna

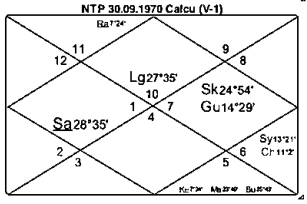

No. 01 Jet Prince won and paid Rs. 21.

This has 2 syllables and 3 sounds, one of the first syllable and two of the second as follow: 'J' of the first syllable and 'P' & 'Ri' of the second syllable. Let us discuss all.

NTP 30.09.1970 Calcu E

NTP 30.09.1970 Calcu (V-1)

No. 01 Jet Prince won and paid Rs. 21.

'J' of Sravana 2 in Makara

Theory A

Please note that the horse itself is in Lagna which by itself is the strongest indication for its win. Deha Lord Chandr does not indicate.

Theory B

Jeeva Lord Chandr also likewise.

Theory C

Chandr's indicators are Chandr and Budh whose Nakshatra Lords are Chandr and Sukr. Both do not indicate.

Theory D

Sani Lord of Lagna aspects both Lagna and horse and also its card no. Rasi counted both from Lagna and horse. This one test will suffice to make it win though all the other tests fail. The very fact that this horse is situated in Lagna and therefore from 1st Rasi from Lagna which is the card No. will do to lift it.

'P' of Uttaraphalguni 4 in Kanya

Theory A

Surya Deha Lord is there alone and in 1st Rasi from the horse which is the card No. and this one test will do to lift the horse even with this second syllable.

Theory B

Chandr Jeeva Lord also with the horse and in card No. is equally good for winning.

Theory C

The indicators of Surya are Mangal and Guru whose Nakshatra Lords are Chandr and Sukr. Chandr as before works.

Theory D

Sani Lord of Lagna aspects Lagna and card No. Rasi counted from Lagna and so sure to win.

'Ri' of Chitra 4 in Tula

Theory A

This does not act.

Theory B

Jeeva Lord Sukr is in horse and card No. counted from horse and this will do.

Theory C

The indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Sukr and Ketu. Sukr is in horse and card no. Rasi from horse. Ketu is also aspecting the horse.

Theory D

Sani Lord of Lagna is not only aspecting Lagna but also the horse. As he is aspecting Lagna No. 1 is also aspected by Sani.

Thus all the tests are fully satisfied even here so the horse won outright.

3rd race; 03:30 pm; Kumbha Lagna

No. 01 Kanchana won and paid Rs. 23.

Its sound is 'Ka' of Mrigashira 3 in Mithuna.

Theory A

Mangal Lord of Deha aspects Lagna.

Theory B

Sukr Jeeva Lord does not indicate.

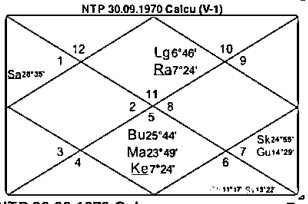

Theory C

The indicators of Mangal are Surya and Ketu whose Nakshatra Lords are Chandr and Ketu. Ketu aspects Lagna and so No. 1 from Lagna.

Theory D

Rahu Lord of Lagna is in Lagna and in card No. Rasi counted from Lagna and so wins.

NTP 30.09.1970 Calcu (V-1)

No. 01 Diamond Link won and paid Rs. 19.

This has 2 syllables with sounds 'Day' and 'Li'.

'Day' of Aslesha 3 in Karkataka

Theory A

Budh Deha Lord not only aspects Lagna but is also aspecting No. 1 Rasi from Lagna and thus this one test itself lifts the horse.

Theory B

Sukr Jeeva Lord does not indicate.

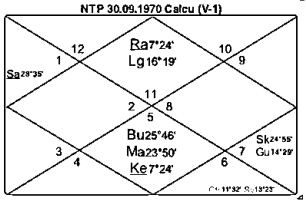

Theory C

The indicators of Budh are Guru and Budh whose Nakshatra Lords are Rahu and Sukr. Rahu is there in Lagna and in No. Rasi from Lagna.

Theory D

Rahu Lord of this Lagna is in Lagna and card No. Rasi counted from Lagna and also aspects the horse and 1st Rasi counted from horse. All these fully endorse winning without the least doubt.

NTP 30.09.1970 Calcu (V-1)

'Li' of Bharani 1 in Mesha

Theory A

Sukr Deha Lord is aspecting the horse and card No. Rasi counted from horse. So sure to win.

Theory B

Guru Lord of Jeeva is aspecting the horse and Lagna and also card No. Rasi both from Lagna and horse which is dead cent by this one test.

Theory C

The indicators of Sukr are Ketu and Sani whose Nakshatra Lords are Ketu and Surya. Ketu aspects Lagna and first Rasi from Lagna.

Theory D

Rahu Lord of Lagna is in Lagna causing No. 1 card No. to come up. Sani the other Lord aspects horse and horse Lord Mangal aspects Lagna and thus the cycle is completed assuring its win by this one test.

NTP 30.09.1970 Calcu (V-1)

No. 05 Havens Peace won and paid Rs. 18.

There are 2 syllables with sound 'Ha' and P'.

'Ha' of Punarvasu 3 in Mithuna

Theory A

Guru Deha Lord is aspecting the horse and also Lagna and also 5th Rasi from Lagna and more than all this Guru himself is in 5th from this horse. What more is needed than this to emphasise the winning of this horse by this one test alone.

Theory B

Rahu Jeeva Lord is in Lagna itself with this duplicate Sani aspecting the horse and 5th Rasi both from Lagna and horse. Even this is a strong plea for win.

Theory C

The indicators of Guru are Ketu and Sani whose Nakshatra Lords are Ketu and Surya. Ketu aspects Lagna and 5th from horse. Sani as Lord of Lagna aspects horse and 5th both from Lagna and horse.

Theory D

Rahu Lord of Lagna and his duplicate Sani is aspecting horse etc. as stated above. Thus all the above tests strike down this as one horse race.

'P' of Uttaraphalguni 4 in Kanya

Theory A

Surya Lord of Deha is in horse Rasi itself.

Theory B

Chandr Jeeva Lord is also in horse Rasi.

Theory C

The indicators of Surya are Mangal and Guru whose Nakshatra Lords are Sukr and Rahu. Rahu is in Lagna.

Theory D

Rahu Lord of Lagna is in Lagna with its duplicate Sani aspecting 5th Rasi from Lagna.

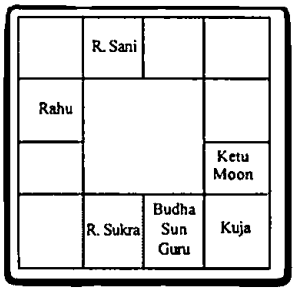

Thus with strong tests with the first syllable and secondary influence of the second syllable the horse may be banked upon.

So are the races held at Calcutta.

Madras races held on Sunday 25.10.1970.

1st race; at 01:45 pm; Makara Lagna

No. 06 The Joker won and paid Rs. 66.

As we have already stated leave off the unimportant words as 'The' and take only 'Joker'.

Sound 'Jo' is of Sravana 3 in Makara

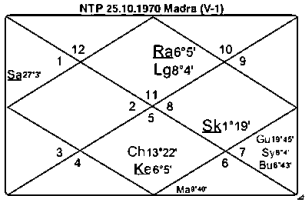

The only test that stands here is that the horse is in Lagna and Lord of Lagna Sani is aspecting Lagna, the horse and 6th from both Lagna and horse. As all conditions are satisfied by this one test no other test is necessary. Thus it may be noted that if under any one test cited by us all these requisits as aspecting Lagna, the horse and the card number Rasi are satisfied then that horse will surely win.

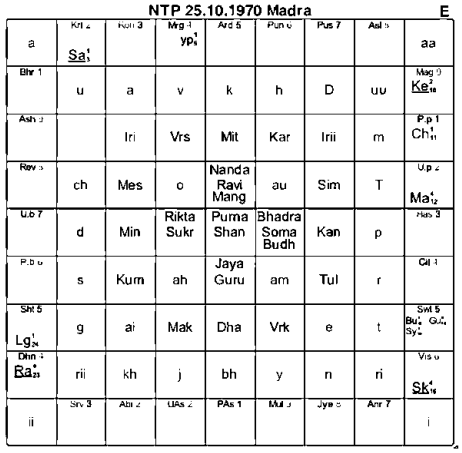

2nd race; at 02:20 pm; Kumbha Lagna

No. 04 Wonder Worker won and paid Rs. 18.

Sound 'VA' is of Rohini in Vrishabha.

First note that the horse is itself in 4th from Lagna which is a very powerful indication of win. Sukr Jeeva Lord of horse is aspecting both the horse and the card no. Rasi from Lagna. Theory C also proves good as indicators of Chandr, the horse Lord, are Chandr and Budh who are in Nakshatras of Sukr and Rahu of whom both aspect the horse and the card no. Rasi from Lagna. What more is needed than this.

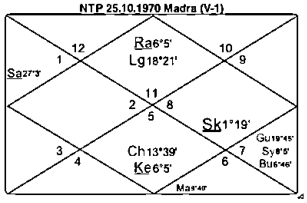

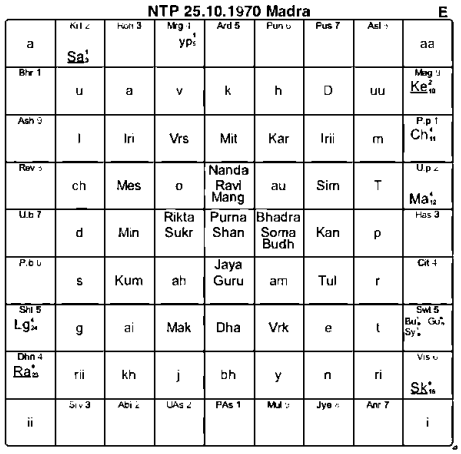

3rd race; at 02:55 pm; Kumbha Lagna

No. 02 Green Slam won and paid Rs. 24.

Sound 'Gi' is of Dhanista in Makara.

Mangal Lord of horse aspects 2nd Rasi from horse and hence shows No. 2 winning. Theory C indicates for Mangal Grahas Surya and Ketu who are in Nakshatras of Rahu and Ketu both aspecting 2nd Rasi from horse as well Lagna. Rahu Lord of Lagna in 2nd from horse and in Lagna and Sani the other Lord aspecting the horse. A powerful indicators lifted the horse.

4th race; at 03:30 pm; Lagna is either Kumbha or Meena

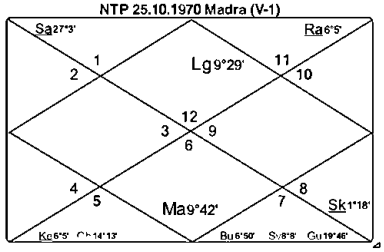

In such doubtful case omit the event and take the next.

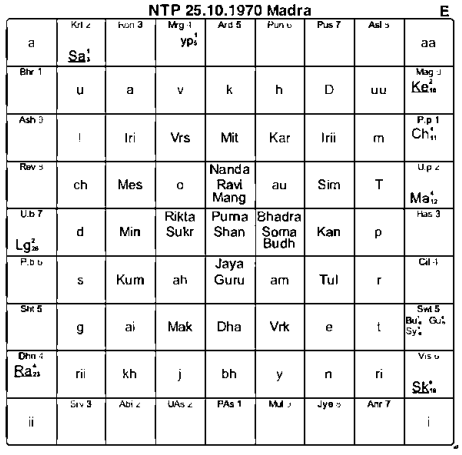

5th race; at 04:05 pm; Meena Lagna

No. 14 Bed of Roses won and paid Rs. 32.

Sound 'RAY' is Uttarashadha in Dhanus.

Surya Deha Lord is aspecting Mesha which is 14th Rasi from Meena Lagna (though Mesha is in 2nd from Meena Lagna add another cycle of 12 Rasis). Rahu, Jeeva Lord, is also aspecting 14th Rasi from Lagna. Mangal and Guru, indicators of Surya, are in

Nakshatras of Surya and Rahu who are both aspecting 14th Rasi from Lagna. Guru Lord of Lagna is also aspecting 14th Rasi from Lagna. Thus all tests show the card number and none aspects the horse and yet it has won showing that the card number is more important than the aspect on horse.

6th race; at 04:40 pm; Meena Lagna

No. 05 Bhajagovindam won and paid Rs. 72.

Sound 'Ba' is of Moola in Dhanus.

We have beforehand said that Ketu acts like Mangal and Rahu like Sani. Mangal is here aspecting both the horse and 5th Rasi from horse, i.e. Mesha with 8th aspect and so indicates No. 5 to win. Jeeva of Mangal is Surya who is also aspecting 5th Rasi from horse. Indicators of Ketu are Sukr and Ketu who are in Nakshatras of Guru and Ketu of whom Ketu acts like Mangal as said before and Guru is aspecting 5th Rasi from horse. Finally Guru as Lord of Lagna is also aspecting No. 5 from horse. Thus all tests are fully seen here with predominance of card No. acting.

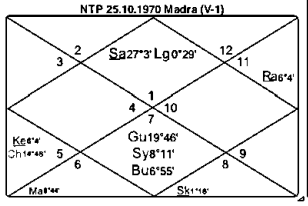

7th race; at 05:15 pm; Mesha Lagna

ii	Srv 3	Abi 2	UAs 2	PAs 1	Mul 9	Jye 8	Anr 7	i

No. 04 Beat Hard won and paid Rs. 42.

Sound 'Ha' is of Punarvasu in Mithuna aspected by its Deha Guru who is also aspecting Lagna, and is also in 5th from horse which is very powerful indication. Jeeva Rahu is aspecting Lagna. Ketu and Sani are the indicators of Guru and their Nakshatra Lords are Ketu and Surya of whom Ketu is in 5th from Lagna and aspecting 5th from horse while Surya is actually in 5th from horse aspecting Lagna - all strong.

With this, Madras events close. We have by this time fully illustrated races from all centres and hope these will suffice for one to fully grasp our theory. We are not going to touch up any more centres but deal with more important topic as **choosing dead certs.**

ॐ Chapter 6 ॐ

ॐ Winner by Navamsa method ॐ

We have before detailed 4 methods of finding the winner by combined methods and now we tell you some of the deepest secrets of Nadi with the help of which the dead certs may be picked up. But by this method you cannot find out all the winners in all races but confine only to those races where these theories are satisfied.

To follow these you should know something more of erecting Navamsa and Drekkana charts which you will please learn from a local astrologer or with the help of out text "New Techniques of Prediction". As we have already burdened with astromomical portion we do not wish to burden further and this is helpful for those who can cast these charts. Any way, ready-made tables are also furnished before.

ॐ Navamsa method ॐ

P.S.: For brevity we call Navamsa chart as D-9. The following are the rules under this Theory.

Rule 1

From Nakshatra Pada of the sound of horse find its Navamsa Rasi. If this Rasi is equal to its card No. reckoned from Rasi Lagna or horse Rasi in Rasi chart then this horse has the capacity to win.

Rule 2

The said Navamsa Rasi of the horse should be aspected by Lord of Lagna or horse or Lord of that Amsa Rasi considering both Rasi Lord and Nakshatra Lord.

Added to rule No. 1 this rule also [has] to be satisfied for banking this horse for a win.

When both these conditions are satisfied this will surely win and it is **dead cert.** Such an animal will not be found at all times and in all races. Pick up only those that satisfy these conditions on that day and play as much as you like on them. You can mint money instead of scatterring on many.

In support of this theory I furnish some of the illustrations as they have come to my urgent notice. You may verify with other races yourself and see how this works. This is one of Nadi revelations made only to me.

ॐ_Illustrations_ॐ

(1) Calcutta, on 30.09.1970, Kumbha Lagna [5th race]

No. 05 Havens Peace won and paid Rs. 18.

Sound 'Ha' is in Punarvasu 3 giving Amsa to Mithuna.

This is 5th Rasi from Lagna and so No. 5 won. Also both the horse and Navamsa Rasi are aspected by both Lords of Lagna and Lord of horse. What more is necessary than this one solid test to lift the horse.

(2) Hyderabad, on 15.10.1970, Meena Lagna [x]

No. 01 Her Ladyship won and paid Rs. 46.

Sound 'Ha' is again in Mithuna Amsa.

Horse Navamsa Rasi is in 1st from horse Rasi and so No. 1 won. Again Lords of horse and Lagna are aspecting this horse and so candid success.

(3) Hyderabad, on 07.10.1970, Meena Lagna [x]

No. 08 Concord won and paid Rs. 36.

Sound 'Ka' is of Mrigashira 3 giving Amsa to Tula.

This Amsa is 8th from Lagna and No. 8 won. Guru Lord of Lagna is also there aspecting horse and so dead cert.

(4) Poona, on 27.09.1970, Makara Lagna [x]

No. 01 Recovery won.

Sound 'Ray' is of Swati 2 giving Amsa to Makara.

This Amsa falling in 1st from Lagna, No. 1 won. Sani Lord of Lagna aspects Amsa and so confirmed further.

(5) Hyderabad, on 04.09.1970, Dhanur Lagna [x]

No. 01 Nice Felle won.

Sound 'Nay' is of Anuradha 4 giving Amsa to Vrischika.

This Amsa falls in 1st from horse and so No. 1 won and its Rasi Lord Mangal is aspecting this Amsa. Thus you see (Amsa) Rasi Lord functioning.

(6) Same day [x]

No. 01 Hill Patrol won.

Sound 'He' of Punarvasu 4 gives Amsa to Karkataka and thus is in 1st from horse and that alone has lifted the animal.

(7) Mysore, on 05.09.1970, Kumbha Lagna [x]

No. 03 Magic Miracle won.

Sound 'Ma' of Magha 1 gives Amsa to Mesha.

As this Amsa is 3rd from Lagna No. 3 won. Sani Lord of Lagna is also in 3rd from Lagna more certain of No. 3 winning.

(8) Hyderabad, on 10.09.1970, Makara Lagna [x]

No. 04 Shiva Shankar won and paid Rs. 15.

Sound 'She' of Sravana 1 gives Amsa to Mesha.

This Amsa is in 4th from Lagna thus lifting 4th horse. Sani Lord of Lagna is there to further confirm it.

(9) Madras, on 25.10.1970, Makara Lagna [1st race]

No. 06 The Joker won and paid Rs. 66.

As we have already suggested to leave off unimportant prefixes and take therefore 'Jocker' whose sound is 'Jo' of Sravana 3 giving Amsa to Mithuna which is 6th from Makara Lagna and so No. 6 won. Sani Lord of Lagna is aspecting both horse and this Amsa and thus confirms further.

(10) Same day, Kumbha Lagna

No. 04 Wonder Worker won and paid Rs. 18.

Sound 'Va' is of Rohini 2 giving Amsa to Vrishabha.

This Amsa is 4th from Lagna and so No. 4 won. Sukr Rasi Lord of this Amsa and horse Rasi is also aspecting this Amsa and so confirms this. This is another case when Amsa Rasi Lord works.

I suppose these illustrations will do to prove the theory. The readers may apply to other cases and see themselves.

With this we close this theory of Navamsa and to the next one of Drekkana which is also taught in Nadi.

ॐ Drekkana method (D-3) ॐ

In this theory we confine only to the sound of the horse but not the card number. In addition to this if the card number is also established by any other method narrated before it is a dead cert. Let us now describe this theory of Drekkana.

Rule

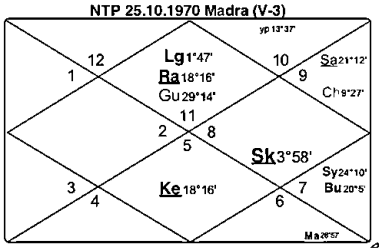

Find the position of Surya in Drekkana and then find Lord of 8th Rasi counted from this Drekkana position of Surya. This final Lord is the indicator of the winner. First of all see in what Rasi this final Lord is situated in Drekkana. Note 1st, 5th and 9th letter that are in that Rasi. The winners are those pertaining to those letter sounds. Likewise see 1st, 5th and 9th letter in Rasi aspected by this Graha. Those horses also win.

Let us illustrate this:

ॐ Illustrations ॐ

(1) Madras, on 25.10.1970

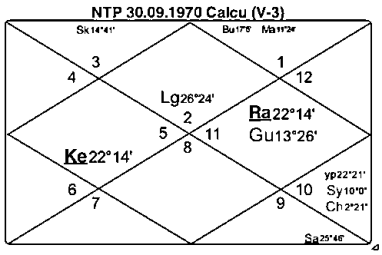

No. 04 Wonder Worker won and paid Rs. 18.

This day Surya is in Tula Drekkana. 8th Rasi from Tula is Vrishabha and its Lord is Sukr. Sukr is in Vrischika in Drekkana. As he aspects Vrishabha 5th letter in this Vrishabha is 'Va' and so its sounding Wonder Worker won. He is also in 4th from Kumbha Lagna showing even the card No. concurrence where is the least doubt of its success.

(2) Calcutta, on 30.09.1970, Makara Lagna

No. 01 Jet Prince won and paid Rs. 21.

Drekkana Surya is in Makara and Lord of 8th from Makara is again Surya and so Rasis of Makara and Karkataka indicate winners. 'Jay' is 5th letter in Makara and Surya is there alone and so sure of its success. More than aspect if the indicator joins the horse Rasi then it is more certain. Added to this horse is in 1st from Lagna assuring the card No. too.

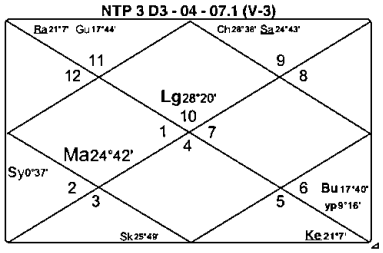

(3) Same day, in Meena Lagna

No. 05 No Doubt won and paid Rs. 26.

Leave off the insignificant prefix 'No' and take 'Doubt' only.

As above, it is again Surya who is the indicator. 9th letter in Karkataka (which is aspected by Surya) is 'Dow' [or 'Doe'] and so this horse won. The horse is also in 5th from Lagna. Thus both the horse sound and card No. are confirmed.

(4) Hyderabad, on 07.10.1970, Meena Lagna

No. 08 Concord won and paid Rs. 36.

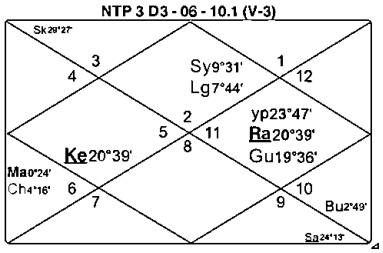

Surya is in Vrishabha Drekkana and Lord of 8th from Vrishabha is Guru who is in Kumbha Drekkana. This Guru aspects Mithuna in which the letter 'Ka' is 1st letter and so Concord won. As this Guru is also aspecting Tula which is 8th Rasi from Lagna its number is also indicated. It may also be seen from Lord of horse who is Mangal. This Mangal being in Mesha Drekkana is also aspecting Tula which is 8th from Lagna. Thus both ways it is confirmed and so dead cert is this horse. Thus if by more than one test sequence is seen then that horse is sure to win.

(5) Same day

No. 06 Roanna won.

As before, it is Guru the indicator who lifted 5th lettered horse of 'Row' in Tula which is aspected by Guru.

(6) Hyderabad, on 10.10.1970

No. 03 Speedy Consolate won.

As before, it is Guru the indicator situated in Kumbha Drekkana. He has 5th lettered 'See' sounding horse of Kumbha.

(7) Same day, in Kumbha Lagna

No. 09 Maghyr won and paid Rs. 43.

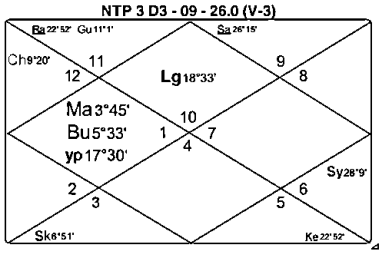

As before Guru the indicator is aspecting 1st letter 'Ma' in Simha and so lifted the horse of that sound. Guru is also aspecting 9th Rasi from Lagna and so the card No. is also confirmed.

(8) Same day, in Kumbha Lagna

No. 04 Sweetness won and paid Rs. 29.

The same Guru is in Kumbha in Drekkana and lifted its 5th lettered horse. Perhpas when the indicator is situated in the same Rasi as that of the horse it is not needed to look into card No. Still it would be letter to get such things substantiated for card No. win by other theories.

(9) Calcutta, on 26.09.1970, Kumbha Lagna

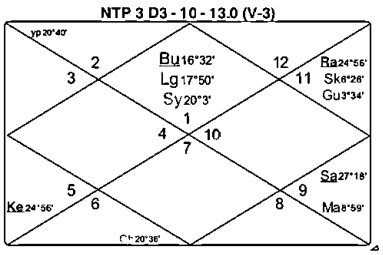

No. 03 Rakhesh won and paid Rs. 10.

Surya is in Kanya Drekkanna and its 8th Rasi Lord Mangal is in Mesha Drekkana.

Mangal the indicator aspects 1st letter 'Raw' in Tula and is actually in 3rd from Lagna thus satisfying both the conditions and hence dead cert.

(10) Hyderabad, on 13.09.1970

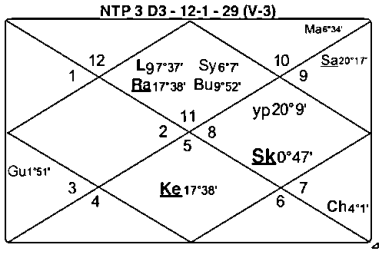

(11) Same day, in Makara Lagna

No. 06 Hill Patrol won.

The same indicator Mangal is aspecting the letter 'He' in Karkataka and thus lifted this horse. Also this Mangal is in 6th from this horse Rasi and so doubly strong.

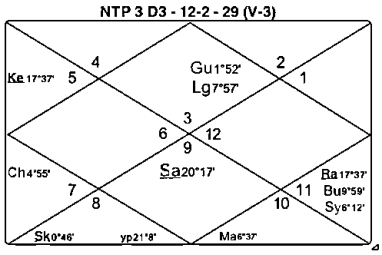

(12) Madras, on Thursday 29.10.1970

1st race; at 01:45 pm; Kumbha Lagna

No. 01 San Marco won and paid Rs. 10.

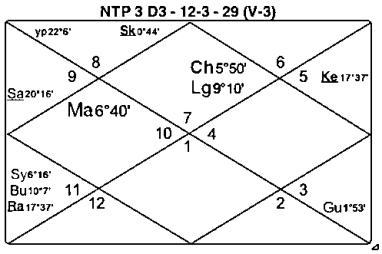

Sound 'Saw' is Satabisha 2 in Kumbha. Rahu its Lord is there alone [in D-1] and so all conditions satisfied. Horse in Lagna and in No. 1 Rasi from both Lagna and horse. Deha Lord in horse and No. 1. So this is dead cert.

2nd race; at 02:20 pm; Kumbha Lagna

No. 05 Kwang Kung won and paid Rs. 22.

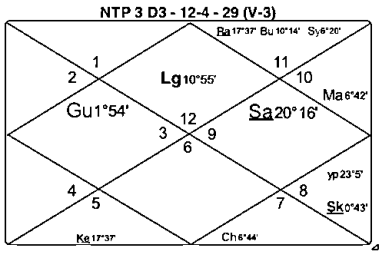

Sound 'Ka' is Mrigashira 3 in Mithuna which is 5th Rasi from Lagna and so horse in [No.] 5 won. Also Mrigashira 3 goes to Tula which is 5th Rasi from horse Rasi and so also No. 5 is strong. Even Jeeva Lord Chandr is in 5th from horse Rasi in Tula. Lord of Lagna [D-1] Sani is aspecting both Mithuna and 5th Rasi from horse, i.e. Tula. So all tests fulfilled, this is also dead cert.

3rd race; at 02:55 pm; Kumbha Lagna

No. 01 Teriyad won and paid Rs. 358.

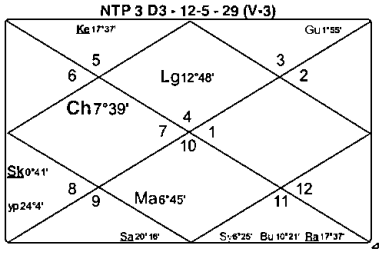

Sound 'Tay' is Uttaraphalguni 1 in Simha. This day as per Drekkana theory 1st, 5th and 9th letter in Kumbha or Simha are certs as Budh Lord of 8th from Drekkana Surya is in Kumbha. The sound or letter 'Tay' is 9th in Simha and so it won. To support the card No. 1 see Jeeva of horse Rahu who is in Lagna showing No. 1 from Lagna and also aspecting the horse also showing No. 1 from horse. So this is a so dead cert and it is big fluke. Thus if on a day you spot out a big fluke like this that will do.

4th race; at 03:30 pm; Meena Lagna

No. 05 Sensation won and paid Rs. 16.

Sound 'Say' is Purvabhadra 1 in Kumbha. Guru Deha Lord and again Guru Sookshma Lord of this horse aspects 5th from horse and so No. 5. Likewise is Lord of Lagna as he is also the same Guru. So this is also dead cert as Drekkana test is also satisfied.

5th race; at 04:05 pm; Meena Lagna

No. 05 Highland Chief won and paid Rs. 126.

Sound 'Hay' is Pushya 2 in Karkataka whose Lord is Sani. Horse himself is in 5th from Lagna. Consider the other syllable 'Chief' whose sound is of Ardra 4 in Mithuna. Its Sthoola Lord Budh is in 5th from horse Rasi and Lord of Lagna (Guru [D-1]) is aspecting both the horse and 5th from horse. All these are definite pointers to its win and again it also paid very high dividend.

Though the rest of the races on this day showed the winners as they are not dead certs we leave them to readers.

As we have not given the positions of Grahas on this day the readers will themselves verify.

We have already stated that if even one theory works on both alphabetology and numerology the winners can be pointed out. Here is the day when most of the winners answered one theory and that:

Lord of Lagna aspecting both the horse Rasi and the card No. Rasi counted from Lagna of horse Rasi (better from Lagna). So we discuss at length another.

(13) Calcutta, on Saturday 31.10.1970

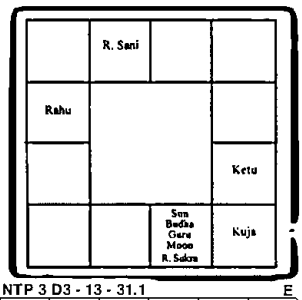

Day's chart is as follows:

Graha	Rasi	Nak. Pada		Nak. Lord
Sy	Tul	Swati	3	Ra
Ch	Tul	Visakha	3	Gu
Ma	Kan	Hasta	2	Ch
Bu	Tul	Swati	3	Ra
Gu	Tul	Visakha	1	Gu
Sk R	Tul	Visakha	3	Gu
Sa R	Mes	Bharani	4	Sk
Ra	Kum	Dhanista	4	Ma
Ke	Sim	Magha	2	Ke

Graha Nakshatras + Pushkar Navamshas

Gra	Nakshatra	No	Lords			
Lag	Satabhisha	24:4*	Ra	Sk	Sa	Ra

	g	ai	Mak	Dha	Vrk	e	t	
	rii	kh	j	bh	y	n	ri	
ii								i

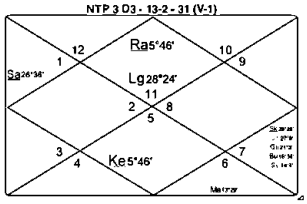

1st race; at 02:00 pm; Kumbha Lagna

No. 01 Awara won and paid Rs. 26.

Sound 'Awe' is of Krittika 1 in Mesha where Sani Lord of Lagna is, thus showing that Lord of Lagna is with horse and card No. from horse. In addition to this all other tests also prove good.

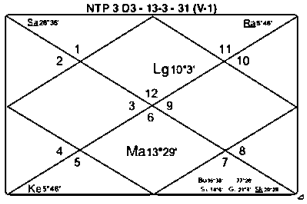

2nd race; at 02:35 pm; Meena Lagna

No. 04 Golden Lancer won and paid Rs. 150.

Sound 'Go' is of Satabisha 1 in Kumbha. Guru Lord of Lagna is aspecting horse as well 4th Rasi from Lagna i.e. Mithuna. Also Deha Lord Rahu is with horse and Sani (like Rahu) is also aspecting 4th from Lagna. Thus it is dead cert. If in a day you get such a horse you can mint money. Of course you must also be lucky at that time.

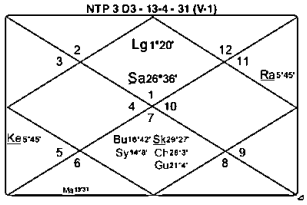

3rd race; at 03:10 pm; Meena Lagna

No. 04 Gray Ribbon won and paid Rs. 20.

Sound 'Gay' is of Dhanista 4 in Kumbha. Guru Lord of Lagna aspects both the horse Rasi and 4th Rasi from Lagna and so won. Its Deha Lord is also aspecting Lagna to support further. So this is also dead cert.

4th race; in Mesha Lagna

No. 07 Pujariu won and paid Rs. 158.

This is another fluke win and a dead cert for us.

Sound 'Poo' is of Hasta 1 in Kanya. Mangal Lord of Lagna is with horse aspecting 7th Rasi from the horse and so dead cert. Other tests also support it.

5th race; in Mesha Lagna

No. 01 Kanchana won and paid Rs. 64.

This is a case to illustrate the theory that even one theory that satisfies both alphabetology and numerology comes successful.

Sound 'Ka' is of Mrigashira 3 in Mithuna. Deha Lord Mangal aspects Lagna which is also the card No. Rasi from Lagna. Likewise Jeeva Lord Chandr is also aspecting Lagna which is also No. 1 from Lagna. Lord of Lagna is also

Lagnas

Till	02:20 pm	Kumbha
	05:51 pm	Meena
	05:31 pm	Mesha

aspecting card No. Rasi. Thus there is the close relation between the horse and card No. and so it won. Similar case is seen in the next race too.

6th race; in Mesha Lagna

No. 05 Home Rule won and paid Rs. 89.

Sound 'Ho' is of Pushya 3 in Karkataka. Horse Lord Sani is in Lagna. Jeeva Lord Sukr aspects Lagna. Other tests are also satisfied. If you want you may add the western No. 8 to Sani. Thus even though they do not indicate card No. the mutual relationship of horse and Lagna alone has lifted the animal. Inspite, we warn not to bank more on such cases.

So are the days events.

Graha Nakshatras + Pushkar Navamshas

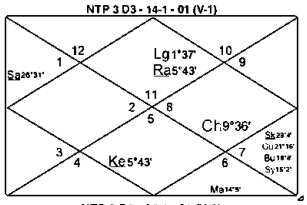

Gra	Nakshatra	No	Lords			
Lag	Dhanistha	23:3	Ma	Bu	Sa	Sa

*Pushkar, also: Par, Ind, Upa, SrL, Bv4, B10

Here is another beautiful day on which our theories have lifted many flukes as dead certs.

(14) Madras races, on 01.11.1970

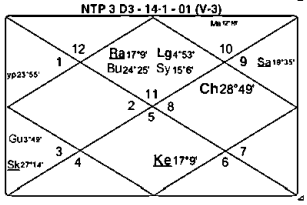

Graha's positions and the chart for the day are just alike that of 31.10.1970 given before except that Chandr goes to Vrischika and to Nakshatra Anuradha 2.

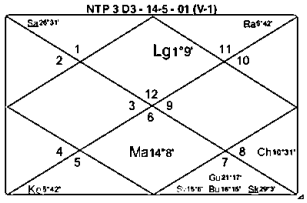

1st race; at 01:30 pm; Kumbha Lagna

No. 01 Streak of Fortune won and paid Rs. 74.

Sound 'See' is of Satabisha 3 in Kumbha. Rahu its Nakshatra Lord (Deha) is there alone in 1st both from horse and Lagna. Added to this our Drekkana test is also working. Surya is in Kumbha Drekkana. Budh, Lord of 8th from Kumbha, is in Kumbha in Drekkana. 5th alphabet in Kumbha is 'See'. What more is needed than this to bank all on this one horse and earn thousands.

5th race; at 03:10 pm; Meena Lagna

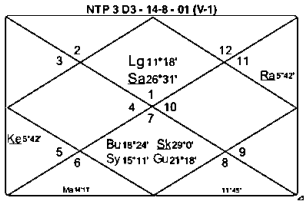

No. 12 Her Ladyship won and paid Rs. 80.

This is another dead cert. Sound 'Ha' is of Punarvasu 3 in Mithuna and Deha Lord Guru is aspecting both the horse Rasi and Kumbha which is 12th Rasi from Lagna. You may also reckon No. 3 assigned to Guru as per western mode as 12 is also 3 (1 + 2 = 3). What more is needed than this. Further Lord of Lagna is also Guru who also acts as stated before.

Do you not see the exactness of our tests in picking up the **dead carts** in a day?

8th race; at 05:25 pm; Mesha Lagna

No. 11 Rage Royal won and paid Rs. 36.

In this race there are only 2 dead certs. No. 7 Little Anand and No. 11. Rage Royal won.

No. 07 Little Anand

Sound 'Li' is of Bharani in Mesha and thus horse is in Lagna itself and its Deha Lord Sukr is in 7th from both Lagna and horse and also aspecting them. Thus both the card No. and horse name tests are fully satisfied indicating this to win.

No. 11 Rage Royal

Sound 'Ray' is of Satabisha 2 in Kumbha. This horse is also in 11th from Lagna and its Deha Lord is also there. So even this is strong for win.

How to select the winner of the two? In this connection we wish to tell you one more important clue in such cases of ties. Of all those that show equal chances of winning prefer the one which is in the visible hemisphere (7th to 12th Rasi from Lagna) to one which is [in invisible hemisphere] (from 1st to 6th Rasi from Lagna) and if all are in one Hemisphere prefer the one that is nearer Lagna Rasi.

Of the above 2 animals Little Anand is in Lagna with its Lord Sukr also in 7th while Rage Royal is in 11th near to Lagna in the visible hemisphere as well its Lord Rahu. So definitely it is Rage Royal that wins.

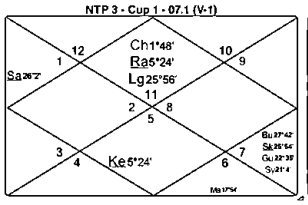

We have furnished very many illustrations even till we place our draft with the press only to aid our readers and convince them that our theory is one of par-excellence in world. At this stage we leave you to yourselves.

We have hitherto dealt with theory of coupling horse name with card No. it bears. Now we shall as a last measure consider the **relation between the horse name and plate or cup name** to find the winner.

The theory underlying this combination is borne on the mutual relation between the two: horse name and plate or cup name. The mutual relation exists when any of the following rules is satisfied:

(01) **When Lord of the horse aspects the plate. It means that when Nakshatra Lord of the horse aspects Rasi containing the plate name.**
(02) **When Lord of the plate name aspects Rasi containing the horse name.**
(03) **When the said 2 Lords aspect each other.**
(04) **When the two Lords are one and the same. Please note that aspect includes conjunction too.**

We cite a few examples in this connection.

Graha Nakshatras + Pushkar Navamshas

Gra	Nakshatra	No	Lords			
Lag	PurvaBhadra	25:2*	Gu	Ke	Sk	Bu
Sur	Vishaka	16:1	Gu	Gu	Sk	Sa
Cha	Dhanistha	23:3	Ma	Bu	Sa	Ma
Man	Hasta	13:3	Ch	Bu	Bu	Ma
Bud	Vishaka	16:3	Gu	Sk	Gu	Gu
Gur	Vishaka	16:1	Gu	Sa	Sk	Sy
Suk	Vishaka	16:2*	Gu	Ke	Sk	Sa
San	Bharani	2:4	Sk	Ke	Sk	Bu
Rah	Dhanistha	23:4	Ma	Sy	Bu	Sa
Ket	Magha	10:2	Ke	Ma	Sk	Gu

*Pushkar, also: Par, Mri, Gul, PPd, Mun, BhL, InL, VaL, ArL, Bv3, B11

(1) Calcutta on 07.11.1970

Balam Handicap - Mr. Money won.

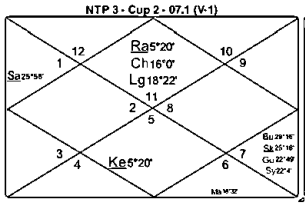

Plate sound 'Ba' is of Moola 3 of Ketu.

Horse sound 'Ma' is of Magha 1 of Ketu.

As both Lords are one [and] the same it won. Also this Ketu is in Magha itself and so more certain.

Gavin Johnston Cup - Royal Challenge won.

Cup Lord Mangal and horse Lord Mangal.

Graha Nakshatras + Pushkar Navamshas

Gra	Nakshatra	No	Lords			
Lag	Satabhisha	24:4*	Ra	Ch	Ra	Ke
Sur	Vishaka	16:1	Gu	Sa	Sa	Gu
Cha	Satabhisha	24:3	Ra	Sk	Ma	Sy
Man	Hasta	13:3	Ch	Bu	Sy	Ke
Bud	Vishaka	16:3	Gu	Sy	Bu	Gu
Gur	Vishaka	16:1	Gu	Sa	Sk	Bu
Suk	Vishaka	16:2*	Gu	Bu	Gu	Bu
San	Bharani	2:4	Sk	Ke	Sk	Ch
Rah	Dhanistha	23:4	Ma	Sy	Bu	Sy
Ket	Magha	10:2	Ke	Ma	Sk	Sy

*Pushkar, also: Par, Mri, Mun, HoL, InL, SrL, Bv3, B11

(2) Madras on 08.11.1970

Arcot Plate - Young Rock won.

Plate Nakshatra is Krittika 1 of Surya and horse Nakshatra Jyesta of Budh.

Surya and Budh [are] together in Tula and aspecting plate Rasi Mesha.

Patron Plate - Patron won.

Plate Lord is Mangal and horse Lord is Mangal and Nakshatra of both (Chitra 1) falls in Kanya where this Mangal also is there. Where is the least doubt in such a case?

Ali Asker Memorial Plate - Sensation won.

Plate Nakshatra is Krittika 1 of Surya.

Horse Nakshatra is Purvabhadra 1 of Guru.

Both Guru and Surya are together in Tula aspecting plate Rasi Mesha.

In this way we can cite multiple examples but fearing volume of this book we stop here leaving the rest to be verified by the readers themselves.

We have thus given a long series of examples to convince our readers and it is for them to verify further.

Thus we have exhausted all the available theories at present and as and when we try to establishment further tests we will try to place before the public later.

So the entire theory of picking up the winner has been exhausted and we shall finally take up to summarise the whole thing and indicate the surest methods of finding the dead certs.

ॐ Chapter 7 ॐ

ॐ Dead certs ॐ

We have stated different sets of rules to find out the winner in a race but some difficulties may be experienced at the initial stage till all the rules are properly digested. Sometimes there might arise alternatives causing confusion. So, in the interest of the punter we lay down some definite rules and precautions in the made of playing. It is always safer to bet on dead certs, though few in number, than to gamble with uncertainties caused by alternatives. How to do it will be explained up [in] this last chapter.

Rule 1

In a day and at a centre find out all the horses that are situated in Rasis equal to its card No. when counted from Lagna Rasi. They are the first certs. To be more fully assured of its winning see if any of the tests satisfies this animal in respect of alphabetology and numerology. In that case you may bank on its winning.

Rule 2

If any one of the above theories satisfies both alphabetology and numerology then that wins. Of them, Lord of Lagna aspecting both the horse Rasi and card No. Rasi counted from Lagna or horse Rasi is most powerful.

Rule 3

See if any Bhava satisfies Drekkana test and also theory A or B. Then that wins.

Rule 4

See if Navamsa theory is also satisfied along with A or B.

Rule 5

After picking up the winner from the above said rules verify it with the theory of 'Plate vs. horse name' theory.

Rule 6

When majority of the above rules apply bank on it.

Rule 7

Latest research shows a more magnificient theory in picking out a dead cert though rare which runs as follows:

(a) Pick up the horse whose Nakshatra Lord or Rasi Lord is Nakshatra Lord of Chandr at the time of race, i.e. the day's Ududasa [Vimshottari] Lord.
(b) If this day's Dasa Lord is in card No. Rasi counted from Lagna or horse that horse wins and more so if it also aspects Lagna.
(c) Sometimes when this Dasa Lord is in Rasi of the horse or aspects it you find it winning.

ॐ Latest research ॐ

The following most important observation made just now at the time of printing the last page of this text throws light on 2 important matters. One is the special aspects of Rahu and Ketu and the other about the over-powering strength of Rahu and Ketu over other Grahas by conjunction or aspect.

ॐ Special aspects ॐ

Some texts ascribe 3rd, 7th and 10th aspect for Rahu and Ketu while Nadi principles stress on 3rd, 7th and 11th aspect. Latest observation confirms the truth of Nadi theory. So we prefer it to the former ones. If you so desire you may have 3rd, 7th, 10th and 11th aspect as the aspects of them.

ॐ Over-powering strength ॐ

When Rahu and Ketu are with other Grahas or aspect other Grahas it is only the power of Rahu and Ketu that predominates.

With these general observations we take up an illustration to confirm this.

Madras races, on Tuesday 01.12.1970

6th race; 04:40 pm; in Vrishabha Lagna

No. 02 Mige won and paid Rs. 408.

Sound 'Me' is of Magha 2 in Simha. Ketu Deha and Jeeva Lord is exactly in Magha 2 and aspecting (11th aspect) 2nd Rasi from Lagna (Mithuna). So tests A and B are fully satisfied. Even test C is satisfied as Rahu and Ketu are Nakshatra Lords of indicators Sukr and Ketu. Again the same Ketu plays part. So it won.

But you should note one more powerful horse No. 13 Rajkamal which satifies all tests and even more than Mige does and yet Mige wins. Why? As said before as this Ketu is aspecting Mangal Lord of Rajkamal by 3rd aspect and Ketu himself is controlling a winner it is the animal of Ketu that overpowers that of Mangal.

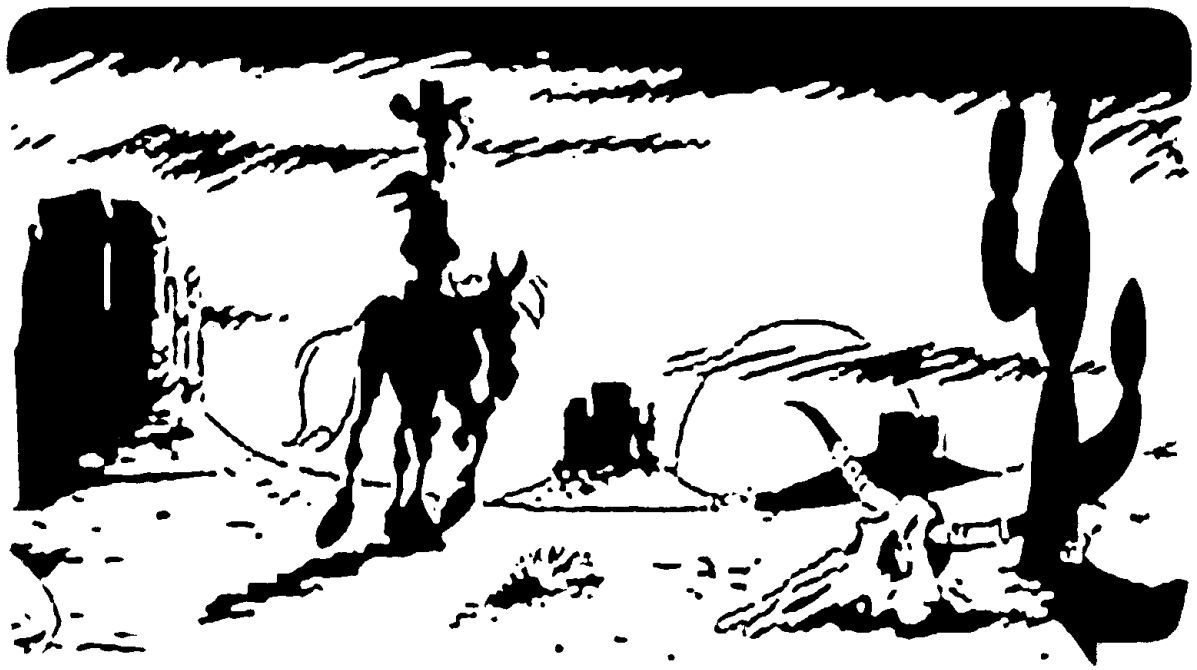

In this way judge the relative strengths too.

P.S.: First select the dead certs in a day and then take up the individual races on the day.

With this final and sincere advice we wish the readers:

ॐ Good Luck and Good Bye ॐ

ॐ May God Bless You ॐ
